

PLASMA CONCENTRATION OF APOLIPOPROTEIN A&B IN ACUTE CEREBROVASCULAR ACCIDENTS

Thesis

Submitted for partial fulfillment of
The Master Degree in **Internal Medicine**

By

Walced Abd El Monim Ramadan

M.B., B.Ch.

Under Supervision of

Prof. Dr.

Ahmed Samir Elmolla

*Prof. and Chairman of
Neurosurgery Dept.
Faculty of Medicine
Ain Shams University*

Prof. Dr.

Mohsen Moustafa Maher

*Prof. of Internal medicine
Faculty of Medicine
Ain Shams University*

Prof. Dr.

Tareef Mohammed Hamza Salam

*Prof. of Clinical Pathology
Faculty of Medicine
Ain Shams University*

CONTENTS

	Page
Introduction and aim of the work	1
Review of Literature	
• Lipoprotein metabolism and its relationship to atherosclerosis	4
• The biology of the artery wall in atherogenesis	40
• Introduction about cerebrovascular strokes	61
Patients and Methods	97
Results	116
Discussion	134
Summary and Conclusion	139
References	141
Arabic Summary	

LIST OF TABLES

Tab. No.	Title	Page
	Tables in review	
1	Physical-chemical characteristics of the major lipoprotein classes	6
2	Characteristics of the major apolipoproteins	8
	Tables in results	
1	Comparison between cases and controls group as regards BUN	117
2	Comparison between cases and controls group as regards s. creatinine	117
3	Comparison between cases and controls group as regards SGOT	118
4	Comparison between cases and controls group as regards GPT	118
5	Comparison between cases and controls group as regards total bilirubin	119
6	Comparison between cases and controls group as regards direct bilirubin	119
7	Comparison between cases and controls group as regards fasting blood sugar	120
8	Comparison between cases and controls group as regards s. cholesterol	120

9	Comparison between cases and controls group as regards s. triglycerides	121
10	Comparison between cases and controls group as regards total lipids	121
11	Comparison between cases and controls group as regards LDL	122
12	Comparison between cases and controls group as regards HDL	123
13	Comparison between cases and controls group as regards Apo A	123
14	Comparison between cases and controls group as regards Apo B	124
15	Correlation between Apo A,B and age	125
16	Correlation between Apo A,B and systolic bl. pr.	126
17	Correlation between Apo A,B and diastolic bl. pr.	127
18	Comparison between Apo A and special habits smoking	128
19	Comparison between Apo B and special habits smoking	128
20	Statistics that reveal the relationship between apo A and past history risk factors	129
21	Statistics that reveal the relationship between apo B and past history risk factors	130
22	Statistics that reveal the relationship between apo A and GCS	131
23	Statistics that reveal the relationship between apo B and GCS	131

24	Statistics that reveal the relationship between apo A and stroke type	132
25	Statistics that reveal the relationship between apo B and stroke type	133
