Correlation Between Anticardiolipin Antibodies and Acute Myocardial Infarction

Thesis

Submitted in Partial Fulfillment of The master Degree

In Cardiology

Presented By

Ashraf Abdel Mageed Abdel Azeem M.B., B.Ch. - M.Sc.

Supervisors

Prof. Dr. Mohsen Mohamed Rashad

Professor of Cardiology Faculty of Medicine Ain Shams University

Assist. Prof. Dr. Sameh Mohamed Shaheen

Assistant Professor of Cardiology Taculty of Medicine Ain Shams University

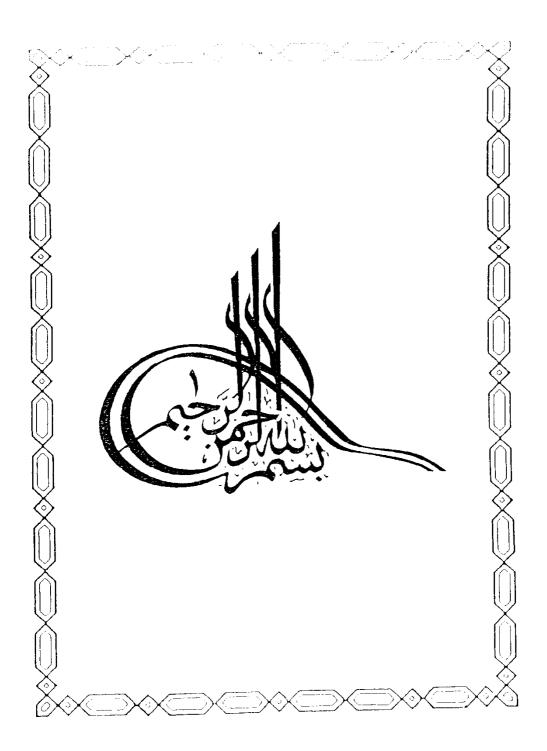

Dr. Iman Mohamed Omar

Lecturer of Clinical Pathology Faculty of Medicine Ain Shams University

> Faculty of Medicine Ain Shams University 1997

Dedication

To My Father's soul, who has endowed me with ulterior agegis

To my mother, who has been my auric aura

And last, but by far least to My wife, to my daughter Yara who have and will always be the source of inspiration for all my endeavorous auspices

A. Abdel Mageed

Acknowledgment

Praise and Thanks to Allah

I wish to thank **Prof. Dr. Mohsen Rashad**, for his help and expert supervision. He has been generous with scientific advice and a strong motivating force to produce an accurate research. For him I will remain humbly grateful.

I would like to express my greatest appreciation to **Assist. Prof. Dr. Sameh Shaheen,** the driving force behind this work, whose interest in the subject of the research has been of great help. I wish to thank him for his valuable time and for his patience.

It was a nice opportunity to work under the supervision of **Dr. Iman Omar.** I am greatly indebted to her for her advice, and constant guidance all through the present work.

Contents

Introduction and Aim of the Work	1
Review of Literature	3
Chapter 1 :	
Hypercoagulability and thrombosis	3
Chapter 2 :	
Phospholipids and antiphospholipids	
antibiotics	14
Chapter 3 :	
Clinical manifestations of antiphospho-	
lipid syndrome	21
Chapter 4 :	
Pathogenesis of thrombosis in antiphosphe	0-
lipid syndrome	37
Chapter 5 :	
Diagnostic laboratory tests for APAs	42
Chapter 6 :	
Treatment of antiphospholipid syndrome	48
Patients and Methods	50
Results	60
Discussion	86
Conclusion and Recommendations	98
Summary	99
References	101
Arabic Summary	

List of Abbreviations

ACAs Anticardiolipin antibodies

ANA Antinuclear antibodies

APAs Antiphospholipid antibodies APS Antiphospholipid syndrome

BFP-STS Biological false positive-serological test for

syphilis.

CCU Coronary care unit

CPK Creatine phosphokinase

CRP C-reactive protein.

DNA Deoxy nucleic acid

DVT Deep venous thrombosis

ECG Electrocardiogram

ELISA Enzyme-linked immunosorbent assay

Fig. Figure

Ig Immunoglobulin

IHD Ischemic heart disease
LA Lupus anticoagulant
MI Myocardial infarction
S.D Standard deviation
S3 Third heart sound

SLE Systemic lupus erythromatosis

VDRL Venereal disease research laboratory
