

# **PARENTERAL NUTRITION IN SURGERY**

## **ESSAY**

*Submitted for partial fulfillment of  
Master Degree in General Surgery*

By

Dr. Ashraf Abd El-Hamid Abd El-Hamid  
*M.B.B.Ch.*

*Supervised by*

**Prof. Dr. Adel Abd El-Kader Mostafa**  
*Professor of General Surgery  
Faculty of Medicine, Ain Shams University*

52647

*Assisting in supervision*

**Dr. Gamal Abd El-Rahman El-Mowallid**  
*Lecturer of General Surgery  
Faculty of Medicine - Ain Shams University*

**FACULTY OF MEDICINE  
AIN SHAMS UNIVERSITY  
1996**

# ACKNOWLEDGEMENT

I Wish To Express My Sincere Gratitude And Deep Appreciation To Prof. Dr. Adel Abd El-Kader Mostafa Professor Of General Surgery Ain Shams University For His Thorough Suggestion, Faithful Advice, Valuable Criticism And Observation.

I Am Deeply Thankful And Grateful To Dr. Gamal Abd El-Rahman El-Mowllid, Lecturer Of General Surgery Ain Shams University, For His Fruitful Supervision, Continuous Guidance,, Endless Encouragement, And Valuable Advice.

**ASHRAF ABD EL-HAMID**

## **CONTENTS**

<b>Introduction and aim of the work.</b>	<b>1</b>
<b>Nutritional requirements and assessments.</b>	<b>2</b>
<b>Metabolic response to trauma and surgery.</b>	<b>33</b>
<b>Indications.</b>	<b>44</b>
<b>Different types of parenteral nutrients.</b>	<b>47</b>
<b>Routes of administration.</b>	<b>82</b>
<b>Parenteral nutrition in some special surgical cases.</b>	<b>92</b>
<b>Complications.</b>	<b>122</b>
<b>English summary.</b>	<b>140</b>
<b>References.</b>	<b>143</b>
<b>Arabic summary.</b>	

## **List of tables**

- (1) : Estimated trace element needs in adult patients on TPN**
- (2) : Estiminated dietary allownces(RDA) of vitamin for adults in 24 hours**
- (3) : Ideal weight for hieght in males and females**
- (4) : The daily urinary nitrogen in response to in injury stimulus**
- (5) : The glucose based system (Preparation of one litre)**
- (6) : The Lipid based system (Preparation of one litre)**
- (7) : Commertial preparation of intralipid**
- (8) : Lipofundin S (Braun)**
- (9) : Composition of some amino acid preparations**
- (10): Composition of salviamin-nephro**
- (11): Composition of Aminovenos N-Pad**
- (12): Composition of Aminosterol KE**

## **List of tables(cont.)**

- (13): Basal nutritional requirements**
- (14): Metabolic derangement in chronic liver disease**
- (15): Factors adversely influencing survival in acute pancreatitis**
- (16): Urea nitrogen appearance and clinical course**
- (17): Theoretical mechanism of action of TPN or elemental diet in management of crohn's disease**
- (18): Adult total parenteral solution**
- (19): Measures advocated to decrease catheter sepsis**
- (20): The major metabolic complications**

## **List of figures**

- (1) : The extensive impact of interleukin-1**
- (2) : The minimal daily urinary nitrogen excretion in relation to injury stimulus**
- (3) : Intermediary metabolism**
- (4) : Metabolism in the injured patient**

# INTRODUCTION
