ACKNOWLEDGMENTS

Thank God for enlightening my path and strengthening my will until I was able to produce this work.

I wish to express my sincere gratitude to *Prof. Dr. Ameira Khalifa Esmail*, Professor of Pathology, Ain Shams University, for her Valuable help, motherly kindness and constant support, throughout this work.

I would like to convey my deepest appreciation to *Dr. Tarek El-Sharkawy*, Lecturer of Pathology, Ain Shames University, for his precious guidance, supervision, valuable instructions and continuous encouragment throughout this work.

I would like to thank *Dr. Hala Taha Salem*, Lecturer of Pathology, National Canser Institute for helping in performing an important part of my practical work.

Finally, I would like to thank *Dr. Pathia Abu El-Aela* Prof. of Pathology N.C.I. for her motherly kindness and support. Also, I like to express my sincere gratitude to *Prof. Dr. Ala Esmail*, Head of The

Acknowledgments

Institute of tropical research and finally I like to convey my deepest appreciation to *Dr. Ehsan Hassan* Head of Pathology Department, Institute of Tropical Research for her generous cooperation and help throughout this work.

To my parents, the favours of whom I will have to repay for as long as I live.

To my husband, for his patience and support.

To my son, the brightest sunshine in my life.

To both my sisters, for their continuous help and encouragement during the production of this work.

TABLE OF CONTENTS

	<i>Page</i>
• Introduction and aim of the work.....	1
• Review of literature	3
- Histology of the mammary glands	3
- Blood supply of the breast	5
- Histopathological classification of breast carcinoma	7
- A hint on epidemiology of cancer breast	20
- Biology of invasion and metastasis	26
- A hint on factor VIII-related antigen and its use to detect angioinvasion in cancer breast ...	34
- A hint on angiogenesis in cancer breast with the use of factor VIII	47
• Material and methods	54
• Results	58
• Discussion	98
• Summary and conclusion	105
• References	107
