

ACUTE APPENDICITIS DIAGNOSTIC ACCURACY

Thesis

SUBMITTED FOR PARTIAL FULFILLMENT OF M.Sc. DEGREE
IN GENERAL SURGERY

By

Abdelaal Ibrahim Aboelenain Mohamed

M.B., B.Ch.

Supervised By

Prof. Dr. Amr Abdelmonem Sherif

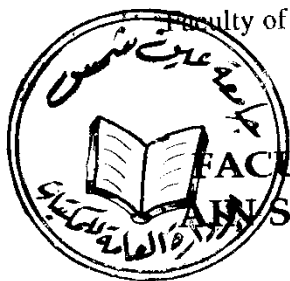

Professor of General Surgery,
Faculty of Medicine, Ain Shams University

Assist. Prof. Laila Nabegh

Assistant Professor of Pathology
Faculty of Medicine, Ain Shams University

Dr. Mohamed Kandil Abdelfattah

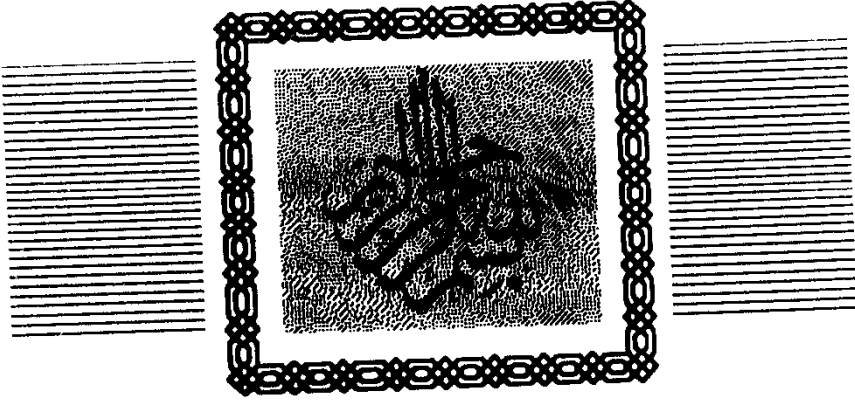

Lecturer of General Surgery,
Faculty of Medicine, Ain Shams University

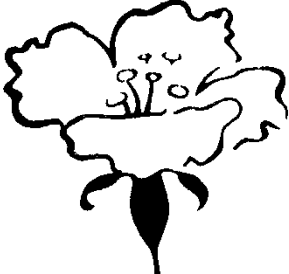

FACULTY OF MEDICINE
AIN SHAMS UNIVERSITY

1998

Dedication

To

*Our Beloved, Great
Prophet Mohamed
Who learned all the world..
How to be a human being*

And To

*My Mother (my first
teacher) and to the
Spirit of My Father*

ACKNOWLEDGEMENT

First and foremost, Thanks to **ALLAH**, the Merciful, the Compassionate.

I would like to express my deepest gratitude to **Prof. Dr. Amr Abdelmonem Sherif**, Professor of General Surgery, Faculty of Medicine, Ain Shams University, for his great encouragement, constructive remarks and sincere guidance

This work have never been completed without the great help, close supervision and meticulous histopathologic work offered by **Assist. Prof. Laila Nabegh**, Assistant Professor of Pathology, Faculty of Medicine, Ain Shams University, to her it is a great honour to me to express my sincere gratitude and appreciation.

I would also like to express my greatest thanks to **Dr. Mohamed Kandil Abdel-Fattah**, Lecturer of General Surgery, Faculty of Medicine, Ain Shams University, for his kind care and valuable advice, he gave me an excellent example of how a true scientist should guide and supervise his student's work.

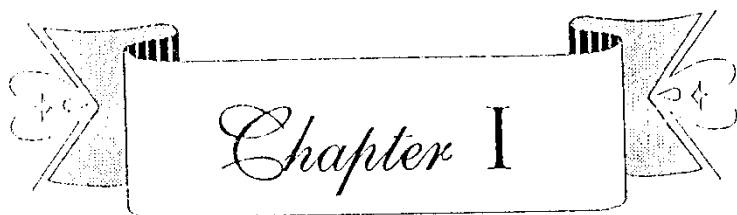

CONTENTS

Arabic Summary	124

LIST OF TABLES

Table (1): Findings in 50 cases operated on for acute appendicitis	89
Table (2): Diagnostic accuracy in relation to age and sex in 50 patients operated on because of suspicion of acute appendicitis	90
Table (3): Duration of symptoms in 50 emergency appendicectomy	91
Table (4): Symptoms in 50 emergency appendicectomy	92
Table (5): Non-perforated versus perforated cases as regards the patient's complaints	93
Table (6): Correlation between menstrual state and the pathologic findings among female sexes	94
Table (7): The pathologic findings in cases with menstrual manifestation	94
Table (8): Physical findings in 50 emergency appendicectomy	95
Table (9): Non-perforated versus perforated appendicitis as regards the physical findings	96
Table (10): Maximum temperature in 50 cases before emergency appendicectomy	97
Table (11): Correlation between obstructive and non-obstructive appendices with the final histopathologic results	101
Table (12): Correlation between histopathologic picture and gross picture of the appendix	102

**INTRODUCTION
AND
AIM OF THE WORK**
