

D

**BLOOD LOSS AT TIME OF CAESAREAN SECTION BY
METHOD OF PLACENTAL REMOVAL AND
EXTERIORIZATION VERSUS IN SITU
REPAIR OF THE UTRINE INCISION**

Thesis

Submitted for the partial fulfillment of
M.Sc. Degree in **Obstetrics and Gynaecology**

By

Nagwa Ibrahim Mohamed

M.B., B.Ch., Ain Shams University

Under Supervision

Prof. Dr. Sobhi Khalil Abou Louz

Professor of Obstetrics and Gynaecology

Faculty of Medicine

Ain Shams University

Dr. Ahmed Mohamed Nor El-Din Hashaad

Lecturer of Obstetrics and Gynaecology

Arabic Summary	

LIST OF TABLES

Tab. No.	Title	Page
1	Descriptive analytical data of the 4 studied groups regarding age and parity	71
2	Comparative study amonge the 4 studied groups regarding maternal age in years	74
3	Comparative study amonge the 4 studied groups regarding the parity	75
4	Descriptive analytical data of the 4 studied groups regarding mean blood loss (in ml), Hct% and Hb% before and after C.S.	80
5	Comparative study amonge the 4 studied groups as regards blood loss in ml.	81
6	Comparative study amonge the 4 studied groups as regards Hct% before C.S.	83
7	Comparative study amonge the 4 studied groups as regards Hct% after C.S.	84
8	Comparative study amonge the 4 studied groups as regards drop in Hct%	86

9	Comparative study amonge the 4 studied groups as regards Hb% before C.S.	88
10	Comparative study amonge the 4 studied groups as regards Hb% after C.S.	89
11	Comparative study amonge the 4 studied groups as regards drop in Hb%	91

LIST OF FIGURES

Fig. No.	Title	Page
Figures in Review		
1	Vertical abdominal wall incision	15
2	Pfannestiel incision	17
3	Modified pfannestiel incision	19
4	Maylard incision	21
5	Uterine wall incision	26
6	Comparison of extending of uterine incision by two techniques	28
7	Technique of extraction of the fetus in cephalic presentation	31
8	Technique of delivery of placenta	33
9	Technique of uterine wall repair in lower segment C.S.	36
10	Technique of uterine wall repair in classical C.S.	38
11	Technique of uterine artery ligation	48
12	Ligation of the right hypogastric artery	50
Figures in Results		
1	Mean age in the 4 studied groups	72
2	Mean parity in the 4 studied groups	73
3	Indications of C.S. (in percent) in group A	76

4	Indications of C.S. (in percent) in group B	77
5	Indications of C.S. (in percent) in group C	78
6	Indications of C.S. (in percent) in group D	79
7	Mean blood loss (in ml) in the studied groups	82
8	Mean haematocrite % in the 4 studied groups before and after C.S.	85
9	Comparative study among the 4 studied groups as regards the drop in the haematocrite %	87
10	Mean haemoglobin % in the 4 studied groups before and after C.S.	90
11	Comparative study among the 4 studied groups as regards the drop in haemoglobin %	92

LIST OF ABBREVIATIONS

C.S.	Caesarean section
Hb	Haemoglobin
Hct	Haematocrite
U/S	Ultrasonography
L/S ratio	Lethiecin / sphingomylin
