Peri-operative Cerebral Morbidity after Cardiopulmonary Bypass

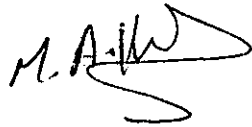

Essay

Submitted for Partial Fulfillment of
Master Degree in
Anesthesia

Submitted by
Essam Samir Abdou
M.B., B.Ch.

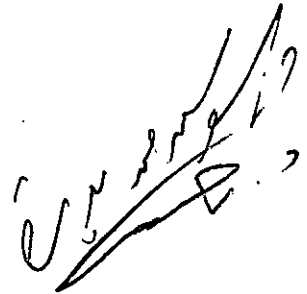

Under supervision of

Prof. Dr. Mohammad Abd El-Khalek Mohamad Ali
Professor of Anesthesia and Intensive Care
Faculty of Medicine- Ain Shams University

Ass.Prof.Dr. Gamal El-Din Mohammad Ahmad Elewa
Assistant Professor of Anesthesia and Intensive Care
Faculty of Medicine- Ain Shams University

Dr. Gehan Abd El-Halim Ali
Lecturer of Anesthesia and Intensive Care
Faculty of Medicine- Ain Shams University

*Faculty of Medicine
Ain Shams University
2002*

B vcc.

ACKNOWLEDGMENT

First; thanks are all for *God* for blessing me this work until it reached its end, as a little part of his generous help throughout my life.

I would like to express my sincere appreciation and deep gratitude to Professor Dr. *Mohammad Abd El-Khalek*, Professor of Anesthesia and Intensive Care; Faculty of Medicine, Ain Shams University, for his moral support, continuous encouragement. Really, it is a great honor to work under his guidance and supervision.

Also, I would like to express my deep thanks to Professor Dr. *Gamal El-Din Mohammad Elewa*, Assistant Professor of Anesthesia and Intensive Care; Faculty of Medicine, Ain Shams University, for great effort he did in every step of this work.

It gives me a great pleasure to express my deep gratitude to Dr. *Gehan Abd El-Halim Ali*, Lecturer of Anesthesia and Intensive Care; Faculty of Medicine, Ain Shams University, for her kind advice and valuable supervision throughout this work.

Essam Samir Abdou

Contents

	Page
Introduction	1
Neurophysiological consideration	2
Cardiopulmonary bypass	30
Cerebral injury after CPB	49
Management of cerebral injury after CPB	71
Summary	98
References	102
Arabic summary	140

List Of Figures

	<i>Page</i>
<i>Fig. (1):</i> Changes in cerebral blood flow (CPF)	9
<i>Fig. (2):</i> A schematic diagram illustrating the normal neuronal ionic homeostasis	15
<i>Fig. (3):</i> The cardiopulmonary bypass circuit	32
<i>Fig. (4):</i> A capillary microporous membrane oxygenator...	35
<i>Fig. (5):</i> Arterial line microfilter	69

List Of Tables

	<i>Page</i>
Table (1): Normal cerebral physiological values	4
Table (2): Comparative effects of anesthetic agent on cerebral physiology.....	21
Table (3): Uses of evoked potential	29
Table (4): Component of cardioplgic solution.....	43
Table (5): Cardiac indications of CPB	46
Table (6): Non cardiac indications of CPB	47
Table (7): Types and initial incidence of neurological Complications after cardiac surgery	50
Table (8): Cerebral thresholds in anoxia_ischemia.....	53
Table (9): Types and sources of microemboli generated during CPB.....	55
Table (10): Procedures and practices to reduce amount of microembolism.....	57
Table (11): Pre_operative cardiac morbidity risk factors..	59
Table(12): Potential biochemical markers of brain injury..	69
Table (13): Potentially neuroprotective physical Intervention in cardiac surgery.....	72
Table(14): Recanalization following thrombolytic therapy	82
