

Shams University

Institute of Environmental Research - Medical Science Department.

**HEALTH EFFECTS OF POLLUTION
ON WORKERS IN PLASTICS
INDUSTRY**

THESIS

Submitted for Ph.D. in
Environmental Sciences (Medical Department)
Ein Shams University.

By

**NAGWA MOHAMMED
ABD EL WAHAB**

MB·B·Ch

Master Degree in Clinical and Chemical Pathology.
Assist. Specialist in Clinical Pathology-Institute of Tropical Medicine 1987
Faculty of Medicine - Cairo University

SUPERVISORS

Dr. ALY ABD EL HADI MASSOUD

Prof. of Community , Environ-
mental and Occupational Medicine
Faculty of Medicine
Ein Shams University.

Dr. AHMED HUSSIN ABD EL KAREM

Prof. of Occupational and
Environmental Health
National Research Center.

1995

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

الرحمن (١) علم القرآن (٢) خلق الإنسان (٣) علمه البيان (٤)
سورة الرحمن الآيات (١-٤)

Ain Shams University

The Institute of Environmental Studies and Research.

The name of candidate : *Nagwa Mohammed Abd El Wahab Abd El Hadi*

Health Effects Of Pollution On Workers In Plastics Industry.

**Thesis Submitted in Ph.D degree in Environmental Science
Department of Medical Sciences**

Discussion and Judgment Committee

Prof. Dr. Aly Abdel Hady Massoud

Department of Community.
Environmental and Occupational
Medicine
Faculty of Medicine
Ain Shams University

Prof. Dr. Mohammed Reda Hamza

Department of Medical Oncology
Dean of National Cancer
Institute
National Cancer Institute
Cairo University

Prof. Dr. Ahmed Hussin Abd El Karem

Department of Occupational and
Environmental Health
National Research Center

***Assist. Prof. Dr. Mohammed
Abd El Kader Al Khafif***

Department of Medical Sciences
Institute of Environmental Studies
and Research
Ein Shams University

Date of discussion : / / 1995

Higher Studies and Research

Agreement

Agreement at

Approval of the Council's Institute

Approval of the Council's University

ACKNOWLEDGEMENT

I am grateful to the Professors who supervised the thesis :

- 1 - Dr. ALY ABD EL HADY MASSOUD , Professor of Community ,
Environmental and Occupational Medicine , Ein Shams University.
- 2 - Dr. AHMED HUSSIN ABD EL KAREM , Prof. of Occupational and
Environmental Health , National Research Center.

I wish also to thank the Professors who cooperated with me :

- 1 - Dr. MOHAMMED AL KHAFIF , Assist. Prof. of Biochemistry ,
Institute of Environmental Research , Ein Shams University.
- 2 - Dr. MOHAMMED SALAH GABAL , Assist. Prof. of Community,
Environmental and Occupational Medicine , Ein Shams University.
- 3 - Dr. MOHAMMED HATHOUT , Director of the Institute of research
for Tropical Medicine , Health Ministry.
- 4 - Dr. OMAR HELAL EL HATAB , Lecturer in Department of
Biostatistics and Epidemiology , National Cancer Institute , Cairo
University.

I am also obliged to my colleague chemist MONA ABD AL MONEM
AHMED , for her help in many laboratory work.

Lastly , I thank the administration of P.P.P. Company for their help.

List of abbreviations	I
List of figures	III
 INTRODUCTION	 1
 REVIEW OF LITERATURE	 1
* The Plastic Pipes and Product	4
* Vinyl Compound	8
.Vinyl Chloride (VC)	8
Physical and chemical characters	8
Exposed population and regulatory measures	10
.Polyvinyl Chloride (PVC)	11
.Other Vinyl Compounds	13
1- Vinyl bromide	13
2- Vinyl acetate	13
3- Polyvinyl acetate	13
4- Polyvinyl alcohol	14
5- Polyvinyl acetals	14
6- Vinylidene chloride	14
7- Polyvinylidene chloride	15
8- Vinyl cyclohexene dioxide	15
* Vinyl Chloride Induced Health Effects	16
. Acute toxicity	17
. Chronic toxicity	18
a- General symptoms	18
b- Liver changes and disturbances of liver functions	19
c- Alteration of cellular elements of the blood	22
d- Acroosteolysis	23
e- Lung changes and alteration of pulmonary functions	26
f- Embryotoxicity and teratogenicity	27
g- Mutagenicity and other short term tests	28
. Carcinogenicity	28
Hepatic angiosarcoma	29
Deviation in liver function tests in angiosarcomas	30
* Polyvinyl Chloride Induced Health Effects	33

List of Abbreviations

ACGIH	American Conference of Governmental Industrial Hygienest.
A / G	Albumin Globulin ratio.
ALT	Alanine aminotransferase.
AOL	Acro-osteolysis.
AP	Alkaline Phosphatase.
AST	Aspartic aminotransferase.
BCG	Bromcresol Green.
BR	Bilirubin.
BSE	Basophilic Stippled Erythrocytes.
BSP	Bromsulphthalein.
CVS	Cardio-Vascular System.
DEHP	Di 2-Ethyl Hexyl Phthalate.
EDTA	Ethylene Diamine Tetra Acetic Acid.
EPA	Environmental Protection Agency.
YGT	Gamma Glutamyl Transpeptidase.
HAS	Hepatic Angiosarcoma.
HB _s Ag	Hepatitis B surface Antigen.
HBV	Hepatitis B. Virus.
ICG	Indocyanine Green.
LFT	Liver Function Tests.
OSHA	Occupational Safety and Health Administration.
PPP	Plastic Pipes and Products Company.
PVC	Poly Vinyl Chloride.
RBC's	Red Blood Cells.
SD's	Standard Deviation.

SE's	Standard Errors.
SGOT	Serum Glutamic Oxaloacetic Transaminase.
SGPT	Serum Glutamic Pyruvic Transaminase.
TLV	Threshold Limit Value.
TWA	Time-Weighed-Average.
VC	Vinyl Chloride.
VCM	Vinyl Chloride Monomer.
WBC's	White Blood Cells.

List of Figures

<i>* Figure</i>	<i>Page</i>
1. Past history of the exposed workers.	65
2. The number and percentage of the studied workers and controls.	67
3. distribution of workers according to work site.	80
4. Relation between different work sites and some liver function tests (serum AST , ALT and alkaline phosphatase).	82
5. Relation between different work sites and some liver function tests (total and direct serum bilirubin and total protein).	84
6. Relation between different work sites and some liver function tests (serum albumin , globulin and A/G ratio).	86
7. Relation between different work sites and some hematological tests (hemoglobin concentration , RBC's and WBC's count).	88
8. Relation between different work sites and some hematological tests (platelets).	90
9. Relation between different work sites and some hematological tests (reticulocytes).	91

List of Tables

P.

Table (1) : Values of age , pluse , systolic and diastolic blood pressure among the studied groups .

Table (2) : Clinical manifestations among 122 workers exposed to polyvinyl chloride (PVC).

Table (3) : Clinical manifestations among 122 workers exposed to PVC .

Table (4) : Past medical history of the 122 exposed workers .

Table (5) : Clinical examination among 122 workers exposed to PVC .

Table (6) : Physical characteristics of the studied population exposed to PVC .

Table (7) : Duration of smoking in years among cases and control .

Table (8) : Duration of exposure among the exposed workers.

Table (9) : Values of some liver functions among the studied groups .

Table (10) : Values of serum protein analysis among the studied groups .

Table (11) : Values of some heamatological parameters among the studied groups .

Table (12) : The relation between cases with negative and positive history of liver diseases and controls as regards some liver function tests .

Table (13) : The relation between cases with negative and positive history of liner diseases and controls as regards some liver function tests .

Table (14) : Relation between cases with negative and positive history of liver diseases as regards some hematological parameters .
