Acknowledgment

First of all, thanks to ALLAH for helping me to achieve this work.

I wish to express my deepest thanks, gratitude and appreciation to Prof. Dr. Mohamed Abdul Rahman Mosa, Professor of Internal Medicine, Faculty of Medicine, Ain Shams University, it is a real pleasure to acknowledge his sincere encouragement and valuable guidance. I would also thank him for his honest help, constant advice, keen interest and guidance throughout the performance of this work.

I would also like to express my deepest thanks to Prof. Dr. Mohamed Salah El-Din Abdul-Baky, Professor of Internal medicine, Faculty of Medicine, Ain Shams University, for his suggesting and planning this work. He patiently guided me on the right way. I am definitely indebted to him more than I can express.

Sincere thanks to Prof. Dr. Mona Mohamed Rafik, Professor of Clinical Pathology, Faculty of Medicine, Ain Shams University, for her great help to me in achieving this work.

I am very grateful to Dr. Hanaa Amer, Specialist of Clinical Pathology, Faculty of Medicine, Ain Shams University, for her great help in the process of this work.

Tayseer A. Abdul-Aal

INDEX

Part	Contents	Page
I	Introduction and Aim of the work	1
II	Review of Literature:	
	• Chapter I: Rheumatoid Arthritis.....	4
	• Chapter II: Cytokines	59
	: The changing face of therapy for rheumatoid arthritis.....	73
III	Patients and Methods	78
IV	Results	81
V	Discussion	100
VI	Summary	108
VII	Conclusions and Recommendations	111
VIII	References	112
IX	Arabic summary	---

LIST OF TABLES

No.	Title	Page
1	The results of the MTX treated group	83
2	The results of the non MTX treated group	84
3	The results of the control group	85
4	Correlation between age among patients with RA treated with MTX and others not treated with MTX	86
5	Comparison between serum level of IL-6 in RA cases treated with MTX and cases not treated with MTX	86
6	Comparison between serum level of IL-6 in RA cases not treated with MTX and control	87
7	Comparison between synovial level of IL-6 among RA cases treated with MTX and cases not treated with MTX	87
8	Correlation between acute phase reactants among patients with RA treated with MTX and others not treated with MTX	88
9	Correlation between acute phase reactants in patients with RA not treated with MTX and control	88
10	Comparison between platelets count in RA patients treated with MTX and others not treated with MTX	89
11	Correlation between RBC, WBC, Hgb% among patients with RA treated and not treated with MTX.	89
12	Correlation coefficient between the weekly dose of MTX and CRP.	90
13	Correlation coefficient between the weekly dose of MTX and ESR.	90
14	Correlation coefficient between the weekly dose of MTX and IL-6 level in serum and synovial fluid..	90
15	Descriptive data of cases of RA treated with MTX and cases not treated with MTX.	91

LIST OF FIGURES

No.	Title	Page
1	CRP in the 3 groups of the study	92
2	ESR in the 3 groups of the study	93
3	Serum IL-6 level in the 3 groups of the study	94
4	Synovial fluid IL-6 level in patients with RA with and without MTX therapy.	95
5	Effect of MTX on RBCs, WBCs, Hb.	96
6	Effect of MTX on platelets count.	97
7	Liver profile in the 3 groups of the study.	98
8	Creatinine level in the 3 groups of the study.	99
