قالوا سبحانك لا علم لنا
إلا ما علمتنا إنك أنت
العليم الحكيم

صدق الله العظيم

Acknowledgment

First, thanks are all due to **God** for blessing this work until it has reached its end, as a part of his generous help throughout my life.

I would like to direct special thanks to **Prof. Dr. Kadry Merham Gergis**, Professor of Anesthesia and Intensive Care Department, Faculty of Medicine, Ain Shams University, for the great support and encouragement he gave me throughout the whole work. It is a great honor to work under his guidance and supervision.

I would like to express my sincere gratitude to **Dr. Amr Mohamed El-Said Kamel**, Lecturer of Anesthesia and Intensive Care, Faculty of Medicine, Ain Shams University, for his close supervision, continuous help, and the tremendous effort he has done in the meticulous revision of the whole work.

Waleed Abd-El Megeed

List of Contents

	PAGE
Introduction.	1
Chapter 1: Epidemiology of Heart Transplantation.	2 – 7
Chapter 2: Toxicology of Immunosuppressants.	8 – 16
Chapter 3: Complications Following Heart Transplantation.	17 – 29
Chapter 4: Blood Transfusion and Transplantation.	30 – 32
Chapter 5: Physiology and Pharmacology of Denervated Heart.	33 - 45
Chapter 6: Anesthetic Management of Cardiac Transplant Patients.	46 – 64
Summary	65 – 68
References	69 – 81
Arabic Summary	1 – 3

List of Figures

No.	Figure	Page
Figure (1):	Survival rate of patients with heart transplantation between January 1968 and September 1985.	3
Figure (2):	Survival rate curves of the patients before and after introduction of cyclosporin A into the immunosuppressive regimen.	5
Figure (3):	Survival rates of patients having heart-lung transplantation.	5
Figure (4):	Chest X-ray showing an episode of acute rejection at 3 weeks.	21
Figure (5):	Comparison of proportion of patients who develop bacterial, fungal, and viral infections.	25
Figure (6):	Schematic of the physiologic responses to exercise before and after cardiac denervation.	36
Figure (7)	Rhythm strip from a patient with an orthotopic transplant.	38
Figure (8):	Chest surface ECG in a patient with an orthotopic transplant showing apparent nodal rhythm.	39
Figure (9):	ECG taken from an intracardiac pacing wire in the same patient showing that the heart is in fact in sinus rhythm.	39
Figure (10):	ECG from a patient with a heterotopic transplant.	40
Figure (11):	Simultaneous recording of ECG and arterial pressure in a patient with heterotopic transplant.	40

List of Tables

No.	Table	Page
Table (1):	Survival rates of patients who underwent heart, heart-lung, and lung transplantation.	4
Table (2):	Surgical procedures performed after cardiac transplantation.	7
Table (3):	Risk factors for infections in transplant recipients.	23
Table (4):	Site of infections according to type of transplant in recipients treated with cyclosporin A.	24
Table (5):	Effects of drugs on the denervated heart.	41
