

HISTOPATHOLOGICAL CLASSIFICATION OF TUMORS OF THE EXTRAHEPATIC BILE DUCTS

*Thesis Submitted for the Partial Fulfillment
of the Master Degree of Pathology*

By

Doaa Ahmed Ibrahim

M.B., B.Ch.

Supervised by

Prof. Dr. Talaat El-Deeb

Professor of Pathology

Faculty of Medicine-Ain Shams University

Prof. Dr. Karima Fahmy Sidhom

Professor of Pathology

Faculty of Medicine-Ain Shams University

Dr. Sahar Saad El-Deen

Assistant Professor of Pathology

Faculty of Medicine-Ain Shams University

**قالوا سبحانك لا علم لنا إلا ما علمتنا،
إنك أنت العليم الحكيم**

صدق الله العظيم

سورة البقرة، الآية ٣٢

Acknowledgment

I would like to express my deepest gratitude to Prof. Dr. Talaat El-Deeb, Professor of Pathology, Ain Shams University, for making this work possible, and for his constant support.

I sincerely thank Prof. Dr. Karima Sidhom, Professor of Pathology, Ain Shams University, for her enormous support and advice.

I am also very grateful to Dr. Sahar Saad El-Dean, Assistant Professor of Pathology, Ain Shams University, for her valuable direction and guidance.

I would like to thank Prof. Dr. Mohammed El-Shawarby, Professor of Pathology, Ain Shams University, for his help in the collection of the material of this work.

List of Contents

	Page
Introduction and aim of the work	1
Review of literature	4
• Anatomy of the biliary tract	4
• Histology of the bile ducts	7
• Histopathological classification of extrahepatic bile duct tumors	9
• Pathology of extrahepatic bile duct tumors	
➤ <i>Incidence of extrahepatic bile duct tumors</i>	26
➤ <i>Anatomic location of bile duct tumors</i>	27
➤ <i>Gross appearance of bile duct tumors</i>	28
➤ <i>Microscopic picture of bile duct tumors</i>	31
➤ <i>Clinical presentation of extrahepatic bile duct tumors</i>	42
➤ <i>Associated disease</i>	44
➤ <i>Diagnosis of extrahepatic bile duct tumors</i>	44
➤ <i>Prognosis and survival</i>	45
Material and Methods	47
Results	48
Discussion	68
Summary and Conclusion	73
References	76
Arabic Summary	

List of figures

	Page
• Fig. (1): Diagram of anatomy of the biliary tract	6
• Fig. (2): Showing well differentiated, mucous secreting adenocarcinoma (H&E $\times$ 250).	56
• Fig. (3): Showing well differentiated adenocarcinoma (H&E $\times$ 250).	57
• Fig. (4): Showing well differentiated, mucous secreting adenocarcinoma (H&E $\times$ 100).	58
• Fig. (5): Showing moderately differentiated adenocarcinoma (H&E $\times$ 250).	59
• Fig. (6): Showing moderately differentiated, mucous secreting adenocarcinoma (H&E $\times$ 250).	60
• Fig. (7): Showing moderately differentiated, mucous secreting adenocarcinoma (H&E $\times$ 250).	61
• Fig. (8): Showing poorly differentiated adenocarcinoma (H&E $\times$ 250).	62
• Fig. (9): Showing poorly differentiated, mucous secreting adenocarcinoma (H&E $\times$ 250).	63
• Fig. (10): Showing well differentiated adenocarcinoma with giant cell reaction (H&E $\times$ 100).	64
• Fig. (11): Showing well differentiated adenocarcinoma with fibromuscular infiltration (H&E $\times$ 100).	65
• Fig. (12): Showing fibromuscular infiltration (H&E $\times$ 100).	66
• Fig. (13): Showing the perineural invasion (H&E $\times$ 250).	67

List of tables

	Page
• Table (1): Age and sex distribution of extrahepatic bile ducts carcinoma	53
• Table (2): The relation between gross appearance, tumor size and histopathological grading of adenocarcinoma cases	53
• Table (3): Relation of histologic grading of cancer to the extent of infiltration	54
• Table (4): Relation of gross appearance of cancer to the extent of infiltration	54
• Table (5): Relation between gross appearance, histologic grading and infiltration	55

*Introduction and
Aim of the Work*
