

SEISMIC MICROZONING STUDY AND ITS APPLICATIONS IN EGYPT

A THESIS

Submitted to
The Faculty Of Science
Ain Shams University
in Fulfillment

Of The Degree Of Doctor Of Philosophy

(Ph. D)

In Geophysics

By

ABUO EL ELA AMIN MOHAMED

(B. Sc., M. Sc.)

Faculty Of Science

Ain Shams University

1998

**TO MY MOTHER
AND THE MEMORY OF MY FATHER**

**TO MY WIFE
AND MY DAUGHTERS AYA AND ALAA**

ACKNOWLEDGEMENTS

First, I have this opportunity to congratulate Prof. Dr A. M. Sabry, Head Department Of Geophysics, Faculty Of Science, Ain Shams University and all the staff members for the establishment of the Department.

I wish to express my gratitude and deep appreciation to Prof. Dr. Mahdy Abd El Rahman, Professor of geophysics, faculty of Science, Ain Shams University, for his supervision, follow up, valuable guidance and encouragement during this study.

I would like to express my deepest gratitude and thankfulness to Dr. Mohamed M. Dessokey, Assist. Professor of seismology, National Research Institute Of Astronomy and Geophysics for his supervision, follow up, explanation, encouragement, scientific discussion and made many valuable suggestions during this study.

I would like to express my sincere thanks to Dr. Imam A. Marzouk, lecturer of seismology, National Research Institute Of Astronomy and Geophysics for supervision, encouragement and guiding the field work around the greater Cairo area during this study. I would like to express my sincere thanks to Dr. Abd El Naser M. Helal, lecturer of Geophysics, Faculty Of Science, Cairo University for supervision and encouragement.

Last but not least my thanks are due to my family who gave me a great power during this study.

ACKNOWLEDGEMENTS	
ABSTRACT	
LIST OF FIGURES	
LIST OF TABLES	
CHAPTER I.....	
INTRODUCTION.....	1
1.1 Seismicity Of Egypt.....	9
1.2 Geography Of Egypt.....	11
1.3 Geology Of Egypt.....	12
1.4 Seismicity Of The Greater Cairo Area.....	18
1.5 Geography Of The Greater Cairo Area.....	18
1.6 Geology Of The Greater Cairo Area.....	19
1.6.1. The Cultivated Valley.....	19
1.6.2. The Eastern Side.....	21
1.6.3. The Western Side.....	21
CHAPTER II.....	
SEISMIC INTERPRETATION OF SHALLOW REFRACTION MEASUREMENTS	
2.1 Generation and Detection Of Seismic Waves.....	27
2.2 Recording System.....	27
2.3 Description Of Seismic Profiles.....	32
2.4 Interpretation Of Seismic Refraction Records.....	33
2.5 Estimation Of Kinetic Elastic Moduli.....	35
2.6 Data And Results.....	36

	Page
2.6.1. El-Zeitoun Site.....	37
2.6.2. Kobri El-Kobba Site.....	37
2.6.3. El-Matariya Site.....	39
2.6.4. Ghamra Site.....	41
2.6.5. Shubra Site.....	44
2.6.6. Ramses Site.....	46
2.6.7. El-Tahrir Site.....	46
2.6.8. El-Gezira Site.....	48
2.6.9. El-Dokki Site.....	51
2.6.10. Imbaba Site.....	51
2.6.11. El-Giza Site.....	54
2.6.12. El-Mokattam Plateau.....	56
2.6.13. El-Massara Site.....	56
2.6.14. Helwan Site.....	58
2.6.15. El-Tebin Site.....	61
CHAPTER III.....	
ROCK MATERIAL COMPETENCE ASSESSED BY SEISMIC MEASUREMENTS FOR SEISMIC ZONES OF THE GREATER CAIRO AREA.....	
3.1. Introduction.....	64
3.2 The N-Value.....	65
3.3 The Concentration Index (C_i).....	65
3.4 The Foundation Material Bearing Capacity.....	67
3.5 The a-Value.....	76
3.6 The Stress Ratio In Soil (S_i).....	78
CHAPTER IV.....	

	Page
SEISMIC MICROZONING.....	
4.1 Estimation Of Seismic Motions For Seismic Microzoning.....	89
4.2 Seismic Hazard Analysis Of Egypt.....	91
4.2.1. Extreme Value Models.....	92
4.2.2. Seismic Source Modeling.....	96
4.3 Method For Calculation Of Seismic Motions.....	117
4.4 Estimation Of Seismic Motions At The Base Rock In Egypt.....	122
4.4.1. Surface Geology Effects In Seismic Microzoning Method.....	134
4.4.2. Estimation Of Seismic Intensity At The Ground Surface.....	143
4.5 Seismic Microzoning Around The Greater Cairo Area By A Precise Method.....	150
4.6 SH-waves Multi-reflection Theory With Haskell's Matrix Method.....	157
4.7 Subsurface Amplification Characteristics For The Greater Cairo Area.....	160
4.8 Surface Geology Effects Of The Greater Cairo For A Seismic Microzoning Method.....	165
4.9 Evaluation Of Seismic Coefficient For Greater Cairo Area.....	168
SUMMARY AND CONCLUSION.....	183
