ACKNOWLEDGEMENT

I wish to express my deepest thanks and gratitude to Prof. Dr. Hassan A. Foda, Professor of Plant Physiology, Faculty of Science, Ain Shams University ; Prof. Dr. Ahmed M. Ahmed, Professor of Plant Ecology, Desert Institute, Cairo and Prof. Dr. Raifa A. Hassanein, Professor of Plant Physiology, Faculty of Science, Ain Shams University for suggesting the point of this research, supervising the work, constructive criticism, valuable discussion, continuous encouragement and sincere help throughout this work.

I also express my deep thanks and gratitude to Prof. Dr. W. El- Saadawy, Head of Botany Department, Faculty of Science, Ain Shams University.

Many thanks are also due to all staff members and my fellow research students of Botany Department, Faculty of Science, Ain Shams University.

This thesis has not been
previously submitted for a
