

Granulocyte Macrophage Colony Stimulating Factor In Immune Thrombocytopenic Purpura

Thesis
Sumbitted In-Partial Fullfilment of Master
Degree in Pediatrics

By
Abeer Adel Abd El Al
M.B.B.Ch.

Faculty of Medicine, Ain Shams University

Supervisors

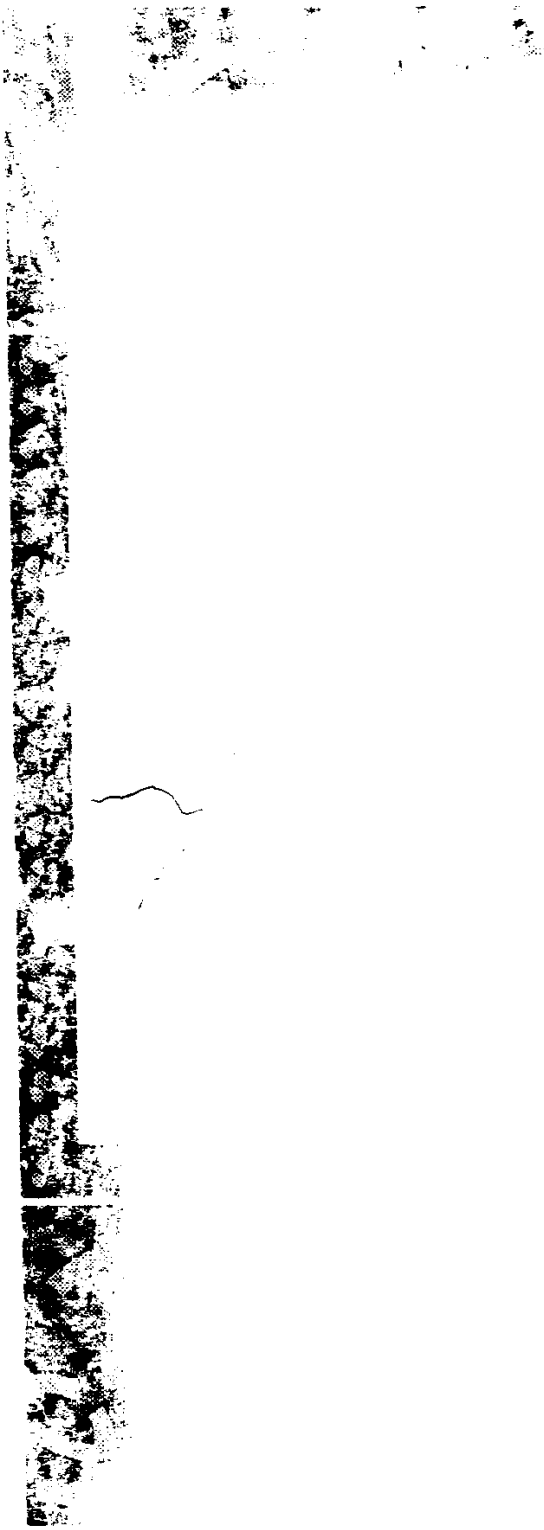

Prof. Dr. Mona Hussein El-Samahy

Professor of Pediatrics
Faculty of Medicine
Ain Shams University

Dr . Tahany Ali El - Kerdany

Assistant Professor of Clinical Pathology
Faculty of Medicine
Ain Shams University.

1997

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

" قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا عَلَّمْتَنَا
إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ "

سورة البقرة
آية (٣٢)

*Dedicated
To my family*

Acknowledgement

First of all thanks to GOD.

I would like to express my deep thanks and gratitude to **Prof. Dr. Mona Hussein El Samahy**, Professor of Pediatrics, Faculty of Medicine, Ain-Shams University, for giving me the privilege to work under her supervision, and for her continuous advice and cooperation all through this work.

I also wish to thank Professor **Dr. Tahany Ali El Kerdany** Ass. Professor of Clinical Pathology, Faculty of Medicine, Ain Shams University, for her direct supervision and her guidance throughout the practical part of this work.

I have the greatest pleasure to express my appreciation to **Dr. Malaka Azmi** Lecturer of Pediatrics, Faculty of Medicine, Ain Shams University, for her supervision and continuous support throughout this work.

I also wish to thank **Dr. Azza Abdel Gawad Tantawy** Lecturer of Pediatrics, Faculty of Medicine, Ain Shams University, for her supervision and continuous support during the preparing to this work.

Finally I would like to thank all patients and their parents in the Haematology Clinic of Pediatrics, who showed good cooperation during collecting the samples to this work.

LIST OF ABBREVIATIONS

ADCC	Antibody-dependent cell mediated cytotoxicity
AIDS	Acquired immunodeficiency syndrome
AML	Acute myelogenous leukemia
ANA	Anti nuclear antibody
BFU	Burst forming units
BMT	Bone marrow transplantation
C. albicans	Candida albicans
CFU	Cell forming unit
CSA	Colony stimulating activity
CSFs	Colony stimulating factors
ELISA	Enzyme linked immunosorbant assay
Fig	Figure
G-CSF	Granulocyte-colony stimulating factor
GM-CSF	Granulocyte macrophage-colony stimulating factor
GP	Glycoprotein
HIV	Human immune deficiency virus
HLA	Human leukocyte Antigen
ICH	Intracranial Hemorrhage

IFN	Interferon
Ig	Immunoglobulin
IL-3	Interlukin-3
ITP	Immune thrombocytopenic purpura
LTB4	Leukotrein B4
M-CSD	Macrophage-colony stimulating factor
PAIg	Platelet associated Immunoglobulin
Pg	Picogram
PMN	Polymorphonuclear neutrophil
Predn	Prednisone
PT	Prothrombin time
PTT	Partial thromboplastine time
SCCL	Small cell carcinoma of the lung
SLE	Systemic lupus Erythematosis

LIST OF TABLES

Table No.		Page
Table 1	Biologic activities of GM-CSF .	51
Table 2	Description of materials of predicta GM-CSF kit .	73
Table 3	The clinical and laboratory data of chronic ITP patients .	85
Table 4	The clinical and laboratory data of acute ITP patients .	87
Table 5	The clinical data and laboratory results of controls .	88
Table 6	The laboratory results of GM-CSF serum levels and phagocytic indices in acute and chronic ITP patients .	89
Table 7	Comparison of serum levels of GM-CSF between all cases of ITP and controls .	90
Table 8	Comparison of phagocytic indices between all cases of ITP and controls .	91

Table 9	Comparison of GM-CSF serum leveles between ITP groups and the control group .	92
Table 10	Comparison of phagocytic indices between ITP groups and the control group .	93
Table 11	Comparison of serum levels of GM-CSF & phagocytic indices between all cases of ITP and controls .	94
Table 12	Comparison of serum levels of GM-CSF between cases of severe ITP and cases of mild ITP.	95
Table 13	Comparison of phagocytic indices between cases of severe ITP and cases of mild ITP .	96
Table 14	Comparison of serum levels of GM-CSF between ITP cases who responded to corticosteroid therapy and ITP cases who failed to respond to corticosteroid therapy .	97

Table 15	Comparison of phagocytic indices between ITP cases who responded to corticosteroid therapy and ITP cases who failed to respond to corticosteroid therapy .	98
Table 16	Correlation between recent platelet count and both GM-CSF serum levels and phagocytic indices in all ITP cases.	99
Table 17	Correlation between GM-CSF serum levels and phagocytic indices in all ITP cases .	100
