STUDY OF CEREBRAL BLOOD FLOW IN INSULIN DEPENDENT DIABETIC PATIENTS

**Thesis Submitted in Partial Fulfillment
Of M.D. Degree in Pediatrics**

Presented By

Hesham Ramadan Abdel-Gawad Khater

M.B.B. Ch, Ain Shams University (1988)

M.Sc. of Pediatrics, Ain Shams University (1995)

Supervisors

Prof. Dr.

***MONA ABDEL KADER
SALEM***

**Professor of Pediatrics
Faculty of Medicine,
Ain Shams University**

Prof. Dr.

***TAREEF HAMZA
SALLAM***

**Professor of Clinical Pathology
Faculty of Medicine,
Ain Shams University**

Prof. Dr. MOHAMMAD OSSAMA ABDUL-GHANI

Professor of Neurology

Faculty of Medicine, Ain Shams University

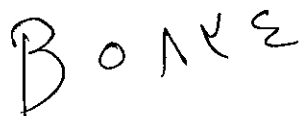

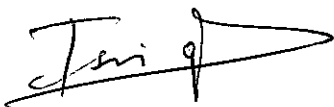

Dr. NAGHAM MOHAMMAD SAMI EL BEBLAWI

Lecturer of Pediatrics

Faculty of Medicine, Ain Shams University

**Faculty of Medicine
Ain Shams University**

2001

Acknowledgment

I wish hearty to express my deep gratitude and appreciation to *Prof. Dr. Mona A.K. Salem*, Professor of Pediatrics, Faculty of Medicine, Ain Shams University, for her efforts, help and advice which are the real force behind the efforts spent in this work.

I would sincerely like to thank *Prof. Dr. Tareef. H.Sallam*, Professor of Clinical-Pathology, Faculty of Medicine, Ain Shams University, for his help, advice and remarks which put the work on the correct path.

Simple words will never be able to express my Profound gratitude to *Prof. Dr. Mohammad O.A. Ghani*, Professor of Neuropsychiatry, Faculty of Medicine, Ain Shams University, for his moral support, generous help and cooperation in offering all the facilities for achieving this work. Also I would like to thank *Dr. Nagham M.S. El-Beblawi*, Lecturer of Pediatrics, Faculty of Medicine, Ain Shams University, for her continuous advice, guidance and help throughout this work.

My sincere thanks are conveyed to *Dr. Azza Abdel Naser*, lecturer of Neuro-psychiatry for her elegant effort in performing the practical part of this study.

Many thanks are also extended to the children and their parents who participated kindly in this work, wishing them all the best of health and hoping that this work may be of some value to them.

Table of Contents

| | Page |
|---|------|
| • Introduction and aim of the work..... | 1-3 |
| • Review of literature..... | 4-96 |
| - Diabetes mellitus..... | 4 |
| - Complications of type-1 diabetes mellitus- Early complications..... | 18 |
| - Chronic or late diabetic complications..... | 21 |
| - Cerebral complications of diabetes mellitus..... | 29 |
| - Treatment of type-1 diabetes mellitus..... | 35 |
| - The diabetic dyslipidemia..... | 46 |
| - Pathophysiology of microvascular disease in diabetes mellitus..... | 51 |
| - Cerebrovascular disease and cerebral blood flow in diabetes mellitus..... | 59 |
| - Relation of haemodynamic changes in type-1 diabetes mellitus to microangiopat. | 64 |
| - Haemorheologic and coagulability changes in diabetic patients..... | 67 |
| - Assessment of cerebrovascular reactivity and autoregulation..... | 76 |
| - Cerebrovascular circulation: Anatomy and collateral pathways..... | 81 |

| | |
|--|-----|
| - Transcranial doppler sonography..... | 89 |
| • Subjects and Methods..... | 97 |
| • Results..... | 123 |
| • Discussion..... | 225 |
| • Summary..... | 237 |
| • References..... | 242 |
| • Arabic Summary. | |

List of Tables

| Table | | Page |
|-------|---|------|
| (1) | Etiological classification of disorders of glycemia (Alberti and Zimmet, 1998) | 7 |
| (2) | Other specific types of diabetes. (Alberti and Zimmet, 1998) | 8 |
| (3) | Summary of vessel identification criteria using free hand doppler techniques. (Fujoka and Douville, 1992) | 94 |
| (4) | Comparative study of hematocrit% value and glycated hemoglobin% (HbA1c%) in group IA and control group. | 123 |
| (5) | Comparative study of lipid profile in group IA and control group. | 124 |
| (6) | Comparative study of rheological data in group IA and control group. | 125 |
| (7) | Comparative study of MFVs of MCAs before and 15 minutes after Diamox injection and mean of vasoreactivities% in group IA and control group. | 126 |
| (8) | Comparative study of hematocrit% (Hct%) value and glycated hemoglobin % (AbA1c%) in group IB and control group. | 130 |
| (9) | Comparative study of lipid profile in group IB and control group. | 131 |

| | | |
|------|---|-----|
| (10) | Comparative study of rheological data in group IB and control group. | 132 |
| (11) | Comparative study of MFVs of MCAs before and 15 minutes after Diamox injection and mean of vasoreactivities% in group IB and control group. | 133 |
| (12) | Comparative study of hematocrit% (Hct%) value and glycated hemoglobin% (HbA1c%) in group IC and control group. | 137 |
| (13) | Comparative study of lipid profile in group IC and control group. | 138 |
| (14) | Comparative study of rheological data in group IC and control group. | 139 |
| (15) | Comparative study of MFVs of MCAs before and 15 minutes after Diamox injection and mean of vasoreactivities% in group IC and control group. | 140 |
| (16) | Comparative study of hematocrit% (Hct%) value and glycated hemoglobin% (HbA1c%) in group IA and group IB. | 156 |
| (17) | Comparative study of lipid profile in group IA and group IB. | 157 |
| (18) | Comparative study of rheological data in group IA and group IB. | 158 |

| | | |
|------|--|-----|
| (19) | Comparative study of MFVs of MCAs before and 15 minuets after Diamox injection and mean of vasoreactivities% in group IA and group IB. | 159 |
| (20) | Comparative study of hematocrit% (Hct%) value and glycated hemoglobin% (HbA1c%) in group IA and group IC. | 164 |
| (21) | Comparative study of lipid profile in group IA and group IC. | 165 |
| (22) | Comparative study of rheological data in group IA and group IC. | 166 |
| (23) | Comparative study of MFVs of MCAs before and 15 minutes after Diamox injection and mean of vasoreactivities% in group IA and group IC. | 167 |
| (24) | Comparative study of hematocrit% (Hct%) value and glycated hemoglobin% (HbA1c%) in group IB and group IC. | 172 |
| (25) | Comparative study of lipid profile in group IB and group IC. | 173 |
| (26) | Comparative study of rheological data in group IB and group IC. | 174 |
| (27) | Comparative study of MFVs of MCAs before and 15 minutes after Diamox injection and mean of vasoreactivities% in group IB and group IC. | 175 |

| | | |
|------|---|-----|
| (28) | Correlation study between different clinical, Biochemical, rheological and cerebral blood flow velocities and vasoreactivity parameters in all patients' group. | 192 |
| (29) | Correlation study between different Biochemical, rheological and cerebral blood flow velocities and vasoreactivity parameters in all patients' group. | 193 |
| (30) | Correlation study between different rheological parameters and cerebral blood flow velocities and vasoreactivity in all patients' group. | 194 |
