

MAGNETIC RESONANCE IMAGING OF INTRACRANIAL EXTRAAXIAL TUMORS

THESIS

Submitted for Partial Fulfillment for the
M.D. Degree in Radiodiagnosis

By

Annie Mohamed Nasr Mehana

(M.B., B.Ch., M.Sc.)

SUPERVISORS

Prof. Dr. Hoda Ahmed EL-Deeb

Professor of Radiodiagnosis
Faculty of Medicine
Ain Shams University

General Dr. Sarwat Mohamed Selim

Consultant of Radiodiagnosis
Maadi Military Hospital

Dr. Yasser Abdel Aziem Abbass

Lecturer of Radiodiagnosis
Faculty of Medicine
Ain Shams University

Faculty of Medicine
Ain Shams University

1995

ACKNOWLEDGEMENT

I would like to express my deepest gratitude to *Professor Dr. Hoda Ahmed El-Deeb*, Professor of Radiodiagnosis, Ain Shams University, for her kind patience, valuable guidance, direction and the time she devoted generously for this work to come into the final form.

I am grateful to *General Dr. Sarwat Mohamed Selim*, Consultant of Radiodiagnosis and Head of Radiodiagnosis Department, Maadi Armed Forces Hospital, for giving me the opportunity to apply most of the cases of this work in the MRI Unit of Radiological Department of Maadi Armed Forces Hospital.

I am much obliged to *Dr. Yasser Abdel Aziem Abbass*, Lecturer of Radiodiagnosis, Ain Shams University, for his valuable guidance and great effort.

I would also like to express my gratitude to *Professor Dr. Zeinab Abd Allah*, Professor and Head of Radiodiagnosis Department, Ain Shams University, for her support and encouragement.

I am much obliged to *Prof. Dr. Khaled Talaat Khairy*, Assistant Professor of Radiodiagnosis, Ain Shams University, for his great effort.

Thanks to all Staff, Colleagues of Radiodiagnosis Department of Maadi Armed Forces Hospital for their Co-operation.

Lastly, I would like to express my deepest gratitude to my family who supported me a lot.

CONTENTS

	Page
- Introduction and Aim of the Work	1
- MRI Anatomy of the Brain	2
- Pathology of Extraaxial Lesions	12
- Material and Methods	34
- Results and Illustrative Cases	38
- Discussion	164
- Summary and Conclusion	194
- References	198
- Arabic Summary	

LIST OF ABBREVIATIONS

CPA	: Cerebello-pontine angle
CS	: Cavernous sinus
CSF	: Cerebrospinal fluid
CT	: Computerized tomography
Gd-DTPA	: Gadolinium diethylene triamine pentaacetic acid
IAC	: Internal auditory canal
ICA	: Internal carotid artery
IV	: Intravenous
MRI	: Magnetic resonance imaging
T₁	: Longitudinal relaxation time
T₂	: Transversal relaxation time
TE	: Time to echo
TR	: Time to repeat

LIST OF FIGURES

Fig. No.	Title	Page
1 - 4	Serial sagittal T ₁ -weighted sections through the normal brain	3,4
5-11	Serial axial T ₁ -weighted, T ₂ -weighted and proton density images from cephalad to caudal through normal brain	5-9
12-15	Serial coronal T ₁ -weighted images from anterior to posterior through the normal brain	10,11
19 (A,B,C)	A case of high convexity meningioma	53
20 (A,B)	A case of high convexity meningioma	55
21 (A,B,C,D)	A case of sphenoidal ridge meningioma	57
22 (A,B,C)	A case of temporal meningioma	59
23 (A,B,C,D)	A case of olfactory groove meningioma	61
24 (A,B,C,D)	A case of Right CPA meningioma	63
25 (A,B,C,)	A case of Left CPA meningioma	65
26 (A,B,C,D,E,F)	A case of suprasellar meningioma	67
27 (A,B,C)	A case of lymphoma of the clivus	71
28 (A,B,C,D,E)	A case of meningeal deposits	75
29 (A,B,C)	A case of meningeal deposits	77
30 (A,B,C,D,E)	A case of pituitary macroadenoma	86

31 (A,B,C,D)	A case of pituitary macroadenoma	88
32 (A,B,C)	A case of pituitary microadenoma	90
33 (A,B,C,D)	A case of pituitary microadenoma	92
34 (A,B,C,D)	A case of craniopharyngioma	97
35 (A,B,C)	A case of acoustic neuroma	102
36 (A,B,C,D)	A case of acoustic neuroma	104
37 (A,B)	A case of intracranial acoustic neuroma	106
38 (A,B,C,D)	A case of trigeminal neuroma	110
39 (A,B,C,D)	A case of chordoma	114
40 (A,B,C)	A case of Right CPA arachnoid cyst	118
41 (A,B,C,D)	A case of suprasellar epidermoid cyst	122
42 (A,B,C)	A case of suprasellar dermoid cyst	126
43 (A,B,C,D)	A case of cholesterol cyst	130
44 (A,B,C,D,E)	A case of left parietal lipoma	134
45 (A,B,C)	A case of colloid cyst of the 3rd ventricle	138
46 (A,B,C)	A case of ependymoma of the 4th ventricle	142
47 (A,B,C)	A case of choroid plexus papilloma of left lateral ventricle	146
48 (A,B,C,D,E)	A case of giant aneurysm of the right ICA	150
49 (A,B,C,D)	A case of sphenoid sinus carcinoma	154
50 (A,B,C,D)	A case of glomus jugulare tumor	158
51 (A,B,C)	A case of pineal body tumor	162

LIST OF TABLES

Table No.	Title	Page
1	The anatomic distribution of meningiomas	14
2	The age distribution of the 77 patients encountered in this study	38
3	Classification of the 77 cases into 20 groups	39
4	The main clinical presentation encountered in the study	40
5	The distribution of 17 cases of meningiomas according to their locations	42
6 -15	The analysis of 17 cases of meningiomas	43-52
16	The analysis of 1 case of lymphoma	70
17	The analysis of 2 cases of meningeal deposits	74
18-23	The analysis of 21 cases of pituitary adenomas	80-85
24,25	The analysis of 6 cases of craniopharyngiomas	95,96
26,27	The analysis of 5 cases of acoustic neuromas	100,101
28	The analysis of 1 case of trigeminal neuroma	109
29	The analysis of 2 cases of chordomas	113
30	The analysis of 3 cases of arachnoid cysts	117
