

SUPRATENTORIAL NEOPLASM IN CHILDREN

THESIS

Submitted for partial fulfillment for the
M.D. Degree of Neurosurgery

by

Mohamed Taghyan Ahmed

M.B.B.Ch., M.Sc. (General Surgery)

Assistant Lecturer of Neurosurgery

Faculty of Medicine, Assiut University

Candidate for the Degree of M.D.

Faculty of Medicine, Ain Shams University

ACKNOWLEDGMENTS

I would like to express my great gratitude and my sincere appreciation to my **Prof. Dr. Mamdoh M. Salama**, Professor of Neurosurgery, Faculty of Medicine, Ain-Shams University for his continuous advice, constructive supervision and kind help.

I do acknowledge gratefully the help, encouragement and support given to me by my **Prof. Dr. Hassanein Al-Sharif**, Professor of Neurosurgery, Faculty of Medicine, Ain-Shams University.

I am also indebted to my **Prof. Dr. Abdel-Hai Moussa**, Professor and the head of Neurosurgical Department, Assiut University for his continuous help, advice and encouragement throughout the course of study leading to this thesis.

I would like to thank all the staff members of Neurosurgical department, Assiut University, and the staff members of Neurosurgical department, Ain-Shams University, notably my professor and the head of Department, **Dr. Ahmed S. Al-Molla**, for their continuous help, kindness and teaching me the art of Neurosurgery.

I am grateful to **Nabiel N. Hanna** for his assistance with typewriting this thesis. I also thank **Miss Hamdy** for sending and inquiring me about the patients presented in the private clinic of Prof. Abdel-Hai, where she works.

Mohamed Taghyan Ahmed
