THESIS

Submitted in Partial Fulfilment for

The Degree of M. Sc. in Botany
(Cytology)

52206

By

Hala Mohamed Abdou El Abrouh

(B. Sc. 1986)

BOTANY DEPARTMENT
FACULTY OF SCIENCE
AIN SHAMS UNIVERSITY

1995

This thesis has not been previously submitted for any degree at this or at any other university.

ACKNOWLEDGEMENT

The author's sincerest thanks and gratitude go to ALLAH, the one and only God, for giving me the strength and perseverance to finish this work. It is through His grace that the present research has come into existence.

Then, my deepest thanks and greatest appreciation to Prof. Dr. Seham M. Ali, Head of Botany Department, Faculty of Science, Ain Shams University, and Prof. Dr. Soheir El Khodary, Dr. Antoinette A. Habib and Dr. Hoda Sobhi, Botany Department, Faculty of Science, Ain Shams University, for suggesting the point of research, active supervision, continuous discussions, constructive criticism and help in presenting this thesis.

Special thanks to all staff members and colleagues in Botany Department, Faculty of Science, Ain Shams University.

VII. RESULTS	22

PART I

A. Cytological studies on the effect of ronilan fungicide on <i>Allium cepa</i> root tips:	
1. Cytological observations on the types of mitotic abnormalities induced by ronilan fungicide in <i>Allium cepa</i> root tips	22
2. Effect of ronilan fungicide on root tips of <i>Allium cepa</i> after 3 hours treatment.....	29
3. Effect of ronilan fungicide on root tips of <i>Allium cepa</i> after 6 hours treatment.....	38
4. Effect of ronilan fungicide on root tips of <i>Allium cepa</i> after 12 hours treatment.....	46
5. Effect of ronilan fungicide on root tips of <i>Allium cepa</i> after 24 hours treatment.....	54

6. Effect of ronilan fungicide on root tips of <i>Allium cepa</i> after 48 hours treatment.....	62
---	----

B. Cytological studies on the effect of furore herbicide on *Allium cepa* root tips:

7. Cytological observations on the types of mitotic abnormalities induced by furore herbicide in <i>Allium cepa</i> root tips.....	72
8. Effect of furore herbicide on root tips of <i>Allium cepa</i> after 3 hours treatment.....	81
9. Effect of furore herbicide on root tips of <i>Allium cepa</i> after 6 hours treatment.....	90
10. Effect of furore herbicide on root tips of <i>Allium cepa</i> after 12 hours treatment.....	98
11. Effect of furore herbicide on root tips of <i>Allium cepa</i> after 24 hours treatment.....	106
12. Effect of furore herbicide on root tips of <i>Allium cepa</i> after 48 hours treatment.....	114

C. Cytological studies on the effect of reldan insecticide on *Allium cepa* root tips:

13. Cytological observations on the types of mitotic abnormalities induced by reldan insecticide in <i>Allium cepa</i> root tips.....	124
14. Effect of reldan insecticide on root tips of <i>Allium cepa</i> after 3 hours treatment.....	131
15. Effect of reldan insecticide on root tips of <i>Allium cepa</i> after 6 hours treatment.....	140
16. Effect of reldan insecticide on root tips of <i>Allium cepa</i> after 12 hours treatment.....	148
17. Effect of reldan insecticide on root tips of <i>Allium cepa</i> after 24 hours treatment.....	156

18. Effect of reldan insecticide on root tips of <i>Allium cepa</i> after 48 hours treatment.....	164

PART II

D. Effect of reldan insecticide on nucleic acids content:

19. Effect of reldan insecticide after treating <i>Allium cepa</i> root tips for 3 hours.....	174
20. Effect of reldan insecticide after treating <i>Allium cepa</i> root tips for 6 hours.....	175
21. Effect of reldan insecticide after treating <i>Allium cepa</i> root tips for 12 hours.....	175
22. Effect of reldan insecticide after treating <i>Allium cepa</i> root tips for 24 hours.....	176
23. Effect of reldan insecticide after treating <i>Allium cepa</i> root tips for 48 hours.....	177
