

RESERVOIR EVALUATION
IN THE
SOUTHERN PART OF THE GULF OF SUEZ
AND
ITS STRUCTURAL RELATIONSHIP

ACKNOWLEDGMENTS

The author wishes to acknowledge his sincere gratitude and appreciation to the Head and Staff of the Geology and Geophysics Departments, Faculty of Science, Ain Shams University for the help and facilities offered during the completion of this work.

The author is highly indebted to Dr. Nasser Abu Ashour, Professor of Geophysics and Vice-Dean of the Faculty of Science, Ain Shams University for his faithful guidance, patience, supervision, fruitful discussions and generous helpful advice throughout this study.

Deep gratitude is extended to Dr. Wafik Meshref, EGPC Vice-Chairman for Agreements, for his conscientious guidance, constant encouragement, fruitful directions and criticism and for his supervision during the course of this work and in reviewing the manuscript.

The author is further indebted to Dr. Hussein Hammouda, Potential Field Division Manager (GUPCO), for his moral support and contribution towards this thesis. His encouragement will always be remembered.

Appreciation is also due to Mr. Hisham Fawzy, Mr. M. Kamel El Gindy and Mr. M. El Laboudy, Gulf of Suez Petroleum Company (GUPCO) for their inspiring cooperation and help.

The author extends his thanks to EGPC, AMOCO and GUPCO authorities for providing the data.

Appreciation is also extended to Mr. Ramzy El Adl for his guidance and valuable advice, to Ms. Lily Badrawy, Mr. Mohamed Sobhi, and Ms. Vivian Aziz, for their assistance and contributions.

Thanks are also due to my wife for her continued encouragement and for drafting most of the thesis materials.
