N O T E

The present thesis is submitted to the Faculty of Science, Ain Shams University in partial fulfillment for the requirements of Master of Science in Geology.

Besides the research work materialized in this thesis the author attended nine post graduate course for one academic year in the following topics :

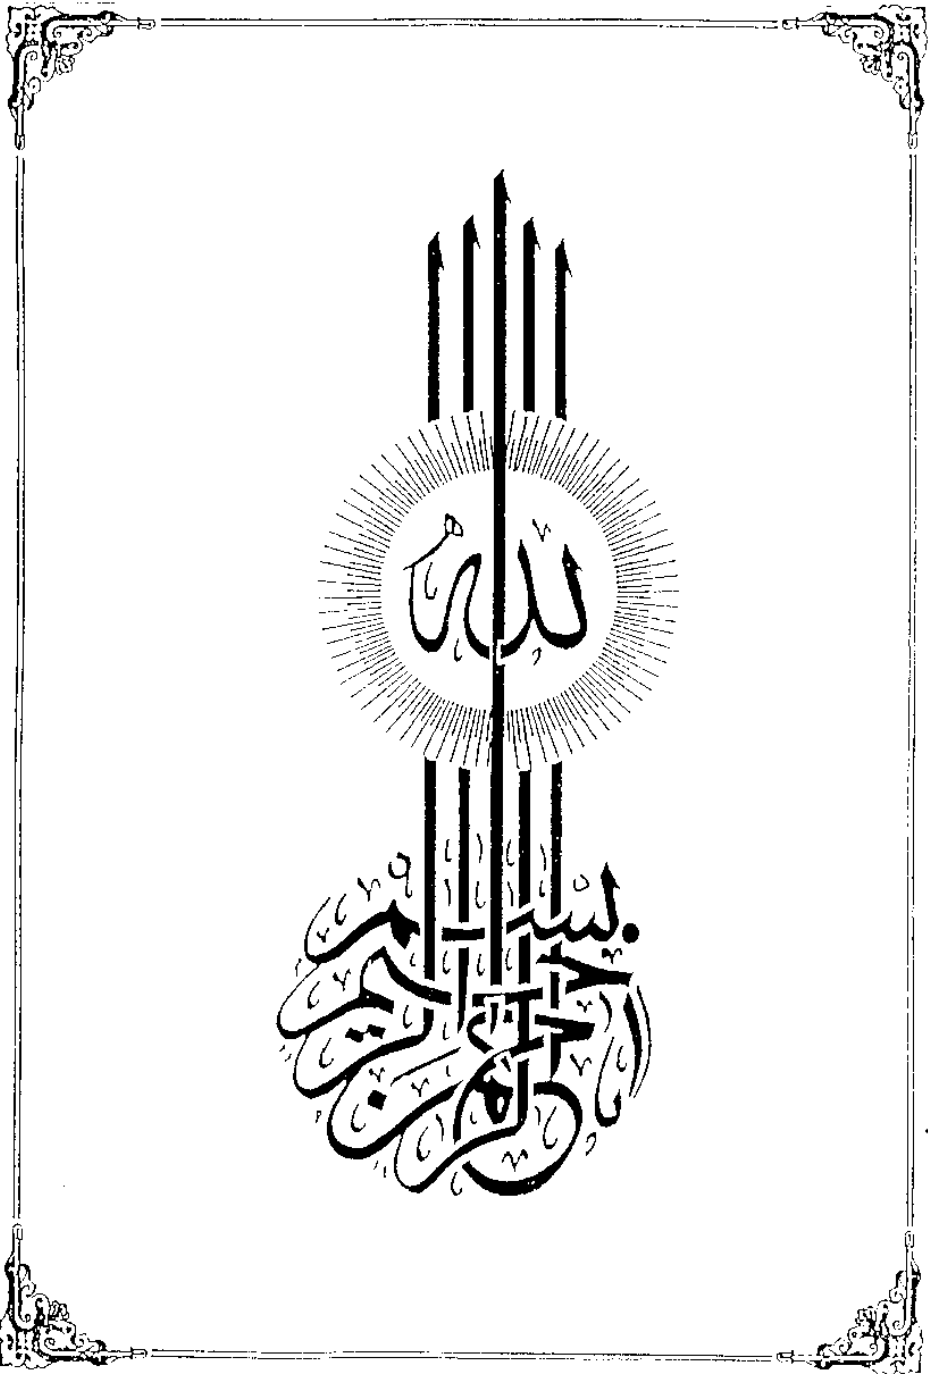

- 1- Field Geology
- 2- Geologic Techniques
- 3- Petrophysical Properties of Rocks
- 4- Structural Geology
- 5- Data Processing
- 6- Subsurface Geology
- 7- Fluid Dynamics
- 8- Hydrogeology
- 9- English Language.

He has successfully passed the final examination of these courses, besides an advanced course in computer (FORTRAN IV Language).

Prof. Dr. M.E. BASSIOUNI

M. A. Bassiouni

Head of Geology Department
Faculty of Science
Ain Shams University

ACKNOWLEDGEMENT

I am particularly indebted to Prof. Dr. M. E. BASTOUNI, Head of the Department of Geology, Faculty of Science, Ain Shams University, for offering the facilities of the Department to achieve this work.

A special word of thank is due to Prof. Dr. OMAR H. CHERIF and Dr. AHMED S.A. ABU EL ATA, for supervising the work and offering valuable suggestions during the progress of the investigations and critical reading of the manuscript.

Grateful appreciation is expressed to the E.G.P.C. for providing me with the needed data.

I am also grateful to the staff of the Ain Shams Computer Centre for offering the facilities to carry out the computer work.

LIST OF CONTENTS

<u>Chapter No.</u>	<u>Subject</u>	<u>Page No.</u>
I.	INTRODUCTION.	1
	1. Aims and limits of the present work.	1
	2. The available data	2
	3. The method of study.	4
II.	STRATIGRAPHY AND GEOLOGY.	6
	1. Generalities	6
	2. Stratigraphy of the area	6
	2.1. Miocene cycle	10
	2.2. Plio-Pleistocene cycle.	13
	2.3. Holocene cycle.	15
	3. Geologic history	16
III.	MANUAL GRAPHICAL WELL LOGGING ANALYSIS.	23
	1. Graphical approach of formation evaluation	23
	2. Mono-Porosity cross plots (Resistivity-Porosity) 23	
	2.1. Determination of formation water resistivity 24	
	2.2. Determination of water saturation	24
	2.3. Determination of total porosity	25
	2.4. Determination of hydrocarbon saturation	26
	2.5. Mono-Porosity application on the studied wells	27
	1- San El Hagar Well-1.	27
	2- Sindy Well-1	27
	3- Qallin Well-1.	32
	4- South Damanhur Well-1	42
	5- Hosh Isa Well-1.	48
	6- Ityay El Baroud Well-1	48
	3. Dia-Porosity cross plots (Porosity-Porosity)	53
	3.1. Determination of shale volume	53
	3.2. Determination of effective porosity	55
	3.3. Various alternatives of dia-porosity cross plots	55

<u>Chapter No.</u>	<u>Subject</u>	<u>Page No.</u>
	1- Density-sonic cross plot ($\rho_b - \Delta t$) . .	55
	2- Sonic-neutron cross plot ($\Delta t - \phi_N$) . .	56
	3- Density-neutron cross plot ($\rho_b - \phi_N$) .	56
	4- Density derived porosity-neutron cross plot ($\phi_D - \phi_N$)	56
	5- Density derived porosity-sonic derived porosity ($\phi_D - \phi_S$)	56
	6- Sonic derived porosity-neutron cross plot ($\phi_S - \phi_N$)	57
	7- Density derived porosity-sonic cross plot ($\phi_D - \Delta t$)	57
	8- Sonic derived porosity-density ($\phi_S - \rho_b$)	57
3.4.	Computer facilities for dia-porosity cross plots	58
3.5.	Determination of the type of shale distrib- uted in the rocks	61
3.6.	Dia-porosity applications on the studied wells	61
	1- San El Hagar Well-1.	61
	2- Sindy Well-1	63
	3- Qallin Well-1.	72
	4- South Damanhur Well-1.	72
	5- Hosh Isa Well-1.	79
	6- Ityay El Baroud Well-1	79
4.	Tri-porosity cross plots (Litho-Porosity). . .	82
4.1.	Mineral identification (M-N plot)	82
4.2.	Matrix identification (MID plot).	83
4.3.	Tri-Porosity applications on the studied wells	84
	1- San El Hagar Well-1.	84
	2- Sindy Well-1	89
	3- Qallin Well-1.	89
	4- South Damanhur Well-1.	98
	5- Hosh Isa Well-1.	98
