

SURVEY AND TAXONOMY ON FAMILY TACHINIDAE (DIPTERA) IN EGYPT

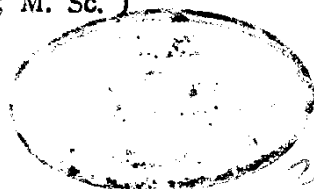

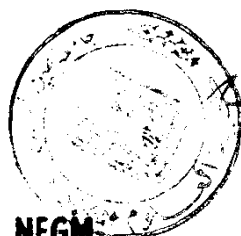

THESIS

Presented to the Faculty of Science
Ain Shams University, for the Award of the
Ph. D. Degree

By

Supervisors

Prof. Dr. A.H. Kaschef *A. Kaschef*
Prof. Dr. M.A.K. Moustafa *M.A.K. Moustafa*
Prof. Dr. Nagat F. Shaumar *NF Shaumar*

Head of Department

Prof. Dr. H.A. Abdel-Rahman

BIOGRAPHY

Date and place of birth: 15 June 1944, Cairo, Egypt

Degrees awarded : B.Sc. Entomology (Special degree), 1967
: M. Sc. Entomology, 1979

Occupation : Assistant-lecturer in
Plant Protection Institute
Ministry of Agriculture

Date of Registration
for Ph.D. Degree : 29-7-1979.

ACKNOWLEDGEMENTS

This work has been carried out under the joint supervision of Professor Dr. Ahmed H. Kaschef, Prof. of Entomology, Faculty of Science; Prof. Dr. M.A.K. Moustafa, Head of Identification Section, Plant Protection Institute; Prof. Dr. Nagat F.H. Shaumar, Prof. of Insect Taxonomy, Department of Entomology, Ain Shams University.

Above all, the author wishes to express his deepest appreciation to Professor Dr. Kaschef for his fatherly careness and continuous encouragement.

I wish to acknowledge my teacher Professor Dr. M. Moustafa, who has offered extremely useful advice for this study, supervised with great enthusiasm the work undertaken, and without his facilities nothing could have been done.

I owe a debt to my teacher Professor Dr. Nagat Shaumar, who shaped my early ideas on taxonomic research work, suggested the topic of thesis and supervised with great enthusiasm this work, and for reading and criticising the manuscript.

Thanks are also due to the head, staff members and colleagues of the Department of Entomology, Faculty of Science, Ain Shams University, as well as the Identification Section Plant Protection Institute for the sincere and continuous help they offered.

The writer wishes to express his thanks to Prof. Dr. Ali El-Moursy and Prof. Dr Refaat Abu Elela, Entomology Department, Faculty of Science, Cairo University who Kindly enabled me to examine the important specimens kept in their collection.

I cannot ever adequately thank my wife who has encouraged me during the progress of the work.

I am grateful to Dr. R.W. Crosskey (London), Dr. L. Knutson, Dr. G. Steyskal, Dr. C.W. Sabrosky and N.E. Woodley (USDA- Washington); Dr. B. Herting (W.Germany) and Dr.J.Kugler (Israel) for identifying our specimens and for their valuable informations.
