سورة النساء (الآية ١١٨)

Some Immunological studies in patients with
Bronchial Asthma caused by Fungi in the
environment of Imbaba - Giza Governorate .

Thesis

Submitted for partial fulfilment of **M.sc.**

by

Intisar Hamido Mohaseb

Supervisors

Professor Dr. \ **Mohammed R. Abu Shady**
Professor & Head of Microbiology department

Faculty of Science
Ain Shams University

&

Professor Dr. \ **Mohammed A. Tag El-din**
Professor of Chest Diseases

Faculty of Medicine
Ain Shams University

Approval sheet

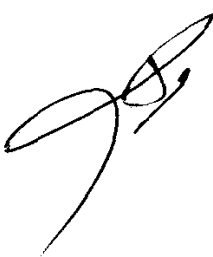

**SOME IMMUNOLOGICAL STUDIES IN PATIENTS WITH
BRONCHIAL ASTHMA CAUSED BY FUNGI IN THE
ENVIRONMENT OF IMBABA - GIZA GOVERNORATE.**

Ain Shams University

Professor Dr. / Abdel Razak Abdel Rahman A. Sedda
Professor of Microbiology departement
Faculty of science El - Azhar university

Date of examination / / 1997

Contents

	Page
I Aim of the study	1
II Introduction	2
III Review of Literature	4
. Asthma	4
. Incidence of Asthma	5
. Types of Asthma	6
. Role of fungal etiology of bronchial Asthma and skin test	8
. Immunoglobulin E against fungal allergens	12
. Fungi from sputum	18
IV Material and methods	19
. Skin test for fungi	19
. Preparation of fungal antigens	20
. Procedure	22
. Immunoglobulin E	24
. Sputum for Eosinophile	29
. Sputum culture for fungi	30
V Results	31
VI Discussion	43
VII Summary	51
VIII References	53
IX Arabic summary	-

List of tables

1. Grading system to measure skin reaction .
2. Interpretative comments concerning total IgE and an Allergy disease evaluation .
3. Age and sex distribution of fungal asthmatic patients and control person .
4. Distribution of 50 asthmatic patients according to frequency of attacks .
5. Distribution of 50 asthmatic patients according to blood eosinophiles .
6. Skin test reactivity to fungal antigens among 50 asthmatic patients .
7. Distribution of total IgE level .
8. Fungi isolated from sputum in 50 asthmatic patients .
9. Skin reactivity test in relation to fungi isolated from sputum culture .
10. Potency of Allergic reactivity test in relation to different fungi .

Acknowledgment

Thanks for God .

It is a real pleasure to acknowledge with gratitude Professor Dr. Mohammed R. Abu Shady Professor and head of Microbiology department Faculty of science Ain Shams university for suggesting the point of research, for his kindly supervision and for his critical criticism during the revision of manuscript .

Sincere thanks and gratitude are also for professor Dr. Mohammed A. Tag El-din Professor of Chest Faculty of Medicine , Ain Shams university for his kindly supervision and for his continuous help .

I wish also to express my deep thanks and gratitude to Dr. Nabil A. El-Deberky Director of Chest and Allergy research center Imbaba - Giza for his continuous encouragement and offering all facilities of research .

Sincere thanks are also for Miss Mervat Shoukry and all my colleagues in Chest and Allergy center for their Kindness and continuous encouragement .
