

COMPARISON BETWEEN APNEA-DEMAND
GENIOGLOSSUS STIMULATION AND NASAL
C.P.A.P. IN MANAGEMENT OF OBSTRUCTIVE
SLEEP APNEA SYNDROME

THESIS
SUBMITTED FOR PARTIAL FULFILLMENT OF
MASTER DEGREE OF CHEST DISEASES

BY :
HESHAM HASSAN RAFAT
M.B., B.CH.

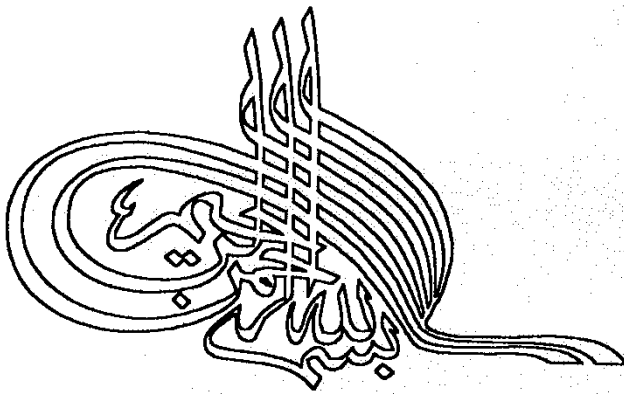

517/54
H.H.
SUPERVISED BY :
PROF. DR. ADEL GOMAA ALY
PROFESSOR AND HEAD OF DEPARTMENT OF CHEST
DISEASES
FACULTY OF MEDICINE
AIN SHAMS UNIVERSITY

PROF. DR. HUSSEIN ALY HUSSEIN
PROFESSOR OF CHEST DISEASES
FACULTY OF MEDICINE
AIN SHAMS UNIVERSITY

DR. MAGDY MOHAMMED KHALIL
LECTURER OF CHEST DISEASES
FACULTY OF MEDICINE
AIN SHAMS UNIVERSITY

1995

اقْرَأْ بِاسْمِ رَبِّكَ الَّذِي خَلَقَ * خَلَقَ الْإِنْسَانَ مِنْ عَلَقٍ *
اقْرَأْ وَرَبُّكَ الْأَكْرَمُ * الَّذِي عَلَّمَ بِالْقَلَمِ *
عَلَّمَ الْإِنْسَانَ مَا لَمْ يَعْلَمْ *

صدق الله العظيم

(سورة العلق الآيات من ١ إلى ٥)

ACKNOWLEDGMENT

First, and foremost, I feel always indebted to god.

Every candidate owes a debt of gratitude and loyalty to his teachers and professors. I would like to express my sincere gratitude and deep appreciation to Prof. Dr. **ADEL GOMAA ALY**, Professor and Head of Department of Chest Diseases, Ain Shams University for his kind guidance and supervision, his fruitful discussion and help, his real encouragement and keen interest throughout the course of this work.

I am greatly indebted to Prof. Dr. **HUSSEIN ALY HUSSEIN**, Professor of Chest Diseases, Ain Shams University, for his meticulous supervision, great interest, invaluable advice and generous help to accomplish this work.

I would like to express my special grateful thanks to Dr. **MAGDY MOHAMMED KHALIL**, Lecturer of Chest Diseases, Ain Shams University, for his invaluable advice, constant support, and kind cooperation all through the study.

I am also deeply grateful to all the members of Chest Department, Ain Shams University, for their help and encouragement.

TABLE OF CONTENTS

CONTENTS	PAGE
INTRODUCTION	1
AIM OF THE WORK	3
REVIEW OF LITERATURE	4
* Historical Background.	4
* Anatomy of the Upper Airways.	6
* Physiology of Obstructive Sleep Apnea.	18
* Clinical Manifestations of the Obstructive Sleep Apnea Syndrome.	44
* Determination of the Site of Upper Airway Obstruction.	69
* The Genioglossus Muscle.	90
* Treatment Modalities of Obstructive Sleep Apnea.	108

ARABIC SUMMARY	

LIST OF TABLES

Table	Page
Table (1) Anatomic causes of obstructive sleep apnea.	15
Table (2) Differential diagnosis of daytime sleepiness.	54
Table (3) Clinical symptomatology of obstructive sleep apnea.	56
Table (4) Anthrobometric characteristics of all patients.	174
Table (5) Arterial blood gases values and spirometric data of all patients.	175
Table (6) Blood pressure values of all patients.	175
Table (7) Polysomnographic data in the diagnostic night.	176
Table (8) Polysomnographic data in the stimulation night.	177
Table (9) Polysomnographic data in the CPAP night.	178
Table (10) Comparison in respiratory disturbance parameters between the diagnostic night and the stimulation night.	179

LIST OF TABLES (CONT.)

Table (11) Comparison in oxygen desaturation parameters between the diagnostic night and the stimulation night.	180
Table (12) Comparison in different respiratory disturbance parameters between the diagnostic night and the CPAP night.	181
Table (13) Comparison in different oxygen desaturation parameters between the diagnostic night and the CPAP night.	182
Table (14) Comparison in respiratory disturbance index between the stimulation night and the CPAP night.	183
Table (15) Comparison in apnea index between the stimulation night and the CPAP night.	183
Table (16) Comparison in hypopnea index between the stimulation night and the CPAP night.	183
Table (17) Comparison in longest apnea hypopnea between the stimulation night and the CPAP night.	184
Table (18) Comparison in mean apnea hypopnea between the stimulation night and the CPAP night.	184
Table (19) Comparison in mean apnea hypopnea between the stimulation night and the CPAP night.	184

LIST OF TABLES (CONT.)

Table (20) Comparison in the total desaturation time percent between the stimulation night and the CPAP night.	185
Table (21) Comparison in the lowest desaturation between the stimulation night and the CPAP night.	185
Table (22) Comparison in the mean desaturation between the stimulation night and the CPAP night.	185
Table (23) Comparison in the desaturation event frequency between the stimulation night and the CPAP night.	186
Table (24) Comparison in the number of desaturation below 85% between the stimulation night and the CPAP night.	186
Table (25) Comparison in the percent change from baseline (diagnostic) respiratory disturbance parameters between the stimulation night and the CPAP night.	187
Table (26) Comparison in the percent change from baseline (diagnostic) oxygen desaturation parameters between the stimulation night and the CPAP night.	188
Table (27) Correlation coefficient between the respiratory disturbance index after apnea demand genioglossal stimulation and other respiratory disturbance parameters.	189
