

**SOME BIOLOGICAL EFFECTS OF
SELENIUM ON THE SNAILS**
“Biomphalaria alexandrina”

Thesis
Submitted to

Biochemistry Department
Faculty of Science
Ain Shams University

In Partial Fulfillment of the Requirements
for the Degree of Master of Science

By

Manal Mohamed Ramadan
(B. Sc. Biochemistry)

Supervised by

Prof. Dr. Nadia Mohamed Abdallah
Professor and Head of Biochemistry Department
Faculty of Science
Ain Shams University

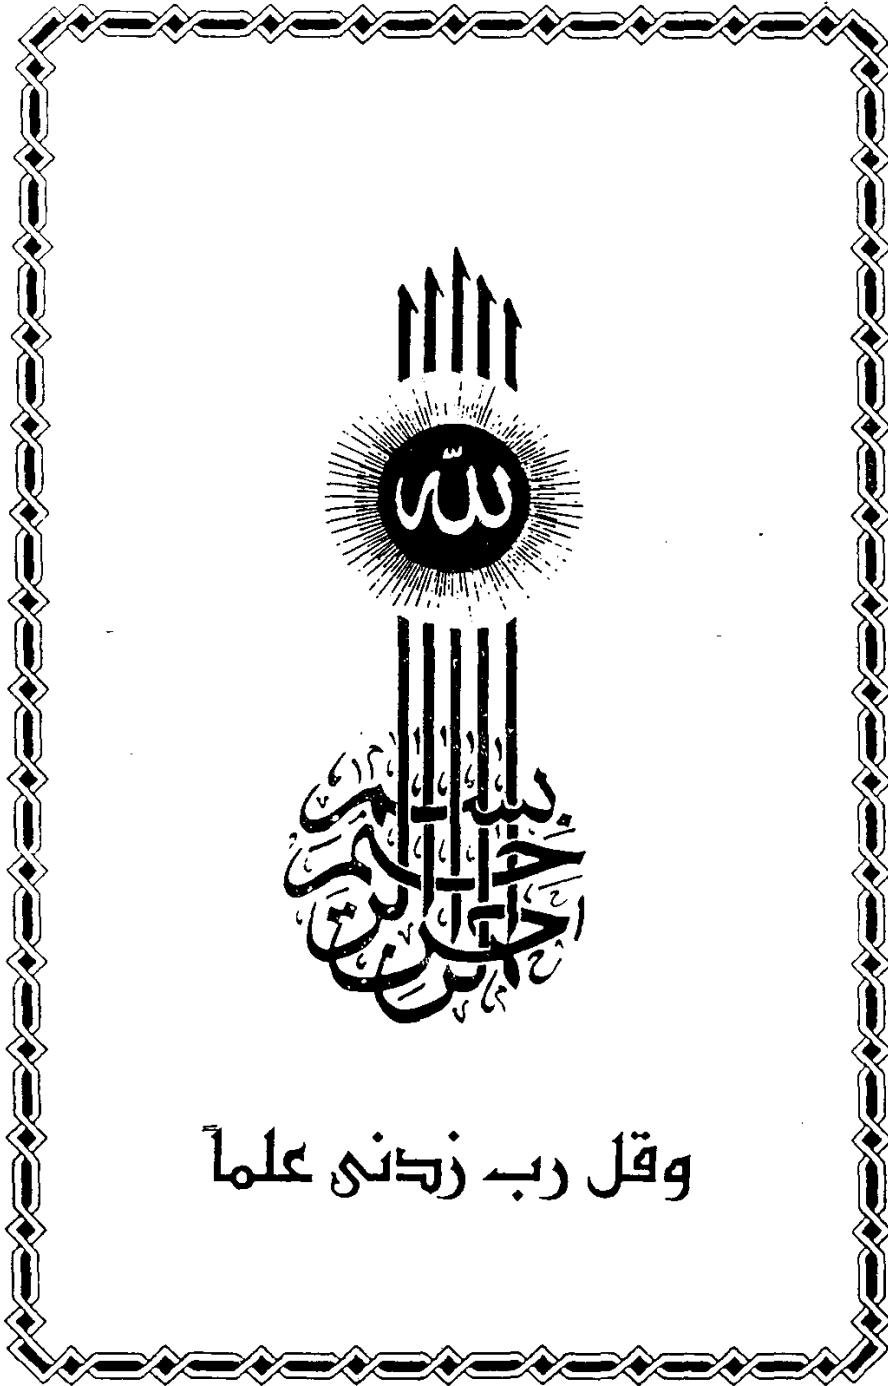

Dr. Ebtehal Kamal Farrag
Assistant professor
Therapeutical Chemistry Department
National Research Center

Dr. Amany Faruk Hussein
Lecturer
Biochemistry Department
Faculty of Science
Ain Shams University

Faculty of Science
Ain Shams University

1998

To My Husband
&
My Family

Biography

Name : Manal Mohamed Ramadan

Degree Awarded : B. Sc. (Biochemistry - Chemistry)

Department : Biochemistry

Faculty : Science

University : Ain Shams University.

Date of Graduation : May, 1989.

Occupation : Research Assistant, Medicinal
Chemistry Department, National
Research Center.

Date of Appointment : July, 1994.

**Date of Registration for
M. Sc. Award** : March, 1994.

**I declare that this thesis has been composed by myself
and the work of which it is a record has been done by
myself. It has not been submitted for a degree at this
or any other university.**

Manal Mohamed Ramadan

1111

I dedicate this piece of work to the Sake of GOD.

CONTENTS

Abstract	i
Aknowledgment	ii
List of abbreviations	iii
List of figures	v
List of tables	vi
List of monographs	viii
Introduction and Aim of the work	x
Chapter 1: Review of literature	
1.1. Schistosomiasis and its importance as a world health problem.	1
1.2. Types of Schistosomiasis	1
1.3. Life cycle of the parasite	4
1.3.1. Intermolluscan development	5
1.4. Reproduction of the snails	7
1.5. Control of Schistosomiasis	9
1.5.1 Control of the disease by chemotherapeutic agents	9
1.5.2. Development of an effective vaccine	10
1.5.3. Immunization with parasite surface antigen	11
1.5.4. Snail control	12
1.5.4.1. Biological control	12
1.5.4.2. Chemical control	12
1.6. Biological role of selenium	17
1.6.1. Essentiality of selenium	20
1.6.2. Toxicity of selenium to various organisms	22
1.7. Selenium in aquatic organisms	25
1.8. Nucleic acids in snails	27
1.9 Effect of selenium on nucleic acids	29
1.10. Effect of selenium on reproduction	30

	page
1.11. Some important enzymes to the snails	31
1.11.1. Deoxyribonuclease	34
1.11.2. Dihydrofolate Reductase (DHFR)	36
1.11.3. Glucose-6-phosphate dehydrogenase (G-6-PD)	37
1.11.4. Alkaline phosphatase and 5' Nucleotidase	39
1.12. The use of selenium as molluscicide	42
 Chapter II : Materials and Methods	
2.1. Materials	45
2.1.1. Snails and Laboratory conditions	45
2.1.2. Treatment	45
2.1.3. Chemicals	46
2.1.4. Instruments	47
2.2. Methods	47
2.2.1. Effect of the tested compounds on the mortality rate of <i>B. alexandrina</i> snails.	47
2.2.2. Extraction of Nucleic acids of <i>B. alexandrina</i> snails.	48
2.2.3. Quantitative determination of nucleic acids	49
2.2.3.1. Quantitative estimation of DNA	49
2.2.3.2. Quantitative estimation of RNA	51
2.2.4. Enzymatic assay in tissue homogenate of <i>B.</i> <i>alexandrina</i> snails	52
2.2.4.1. Preparation of tissue homogenate for enzymes assay	52
2.2.4.2. Determination of deoxyribonuclease activity	53
2.2.4.3. Determination of dihydrofolate reductase activity	54
