

**CLINICAL AND BIOCHEMICAL STUDY OF THE NON-STEROIDAL
ESTROGENIC AND PROGESTATIONAL EXTRACT
OF ADIANTUM CAPILLUS VENERIS L**

**A THESIS
SUBMITTED FOR PARTIAL FULFILLMENT
OF MD DEGREE IN OBSTETRICS AND GYNECOLOGY**

By

Magdy Hassan Ahmad Kolaib

Assistant Lecturer in Gynecology and Obstetrics Department
Ain Shams University

Supervised By

Prof. Dr. Mohamed N. El-Makhzangi
Professor of Gynecology and Obstetrics
Faculty of Medicine
Ain Shams University

Prof. Dr. Mohamed A. Mehanna
Professor of Gynecology and Obstetrics
Faculty of Medicine
Ain Shams University

Prof. Dr. Fathy M. Soliman
Professor of Pharmacognosy
Faculty of Pharmacy
Cairo University

Dr. Essam M. Khater
Ass. Professor of Gynecology and Obstetrics
Faculty of Medicine
Ain Shams University

Dr. Mona M. Zaki Ali
Lecturer of Clinical Pathology
Faculty of Medicine
Ain Shams University

**Faculty of Medicine
Ain Shams University
1997**

ACKNOWLEDGEMENT

I would like to express my utmost thanks and sincere gratitude to my *Professor Dr. Mohamed Nage El-Makhrangy*, Professor of Obstetrics and Gynecology, Faculty of Medicine Ain Shams University for suggesting the subject, continuous encouragement and his meticulous efforts in supervising the work.

I am also deeply thankful to *Professor Dr. Mohamed Abdel Halim Mehanna*, Professor of Obstetrics and Gynecology, Faculty of Medicine, Ain Shams University for his kind help and valuable comments and advice.

I am really indebted to *Dr. Essam M. Khater*, Assistant Professor of Obstetrics and Gynecology, Faculty of Medicine, Ain Shams University who helped me very much during the preparation, supervision and till the production of this work.

It is my great pleasure to express my deep gratitude to *Professor Dr. Fathey Mohamed Soliman*, Professor of Pharmacognosy, Cairo University for his kind efforts during preparation of the medication used in the study.

My deep thanks also to *Dr. Mona Mohamed Laki*, Lecturer in Clinical Pathology department, Faculty of Medicine, Ain Shams University for her kind and meticulous efforts in carrying out the laboratory assays.

I am also very thankful and grateful to *Dr. Magda Hassan Abdel El-Hameed*, Assistant Professor of Pathology, Faculty of Medicine, Ain Shams University for her valuable role in histopathological and cytological results.

I am indeed appreciating and grateful to every body who helped me in Ain Shams Maternity Hospital or in Department of Pharmacognosy, Cairo University.

Thanks to my patients, who without their cooperation, this work could not be produced.

Finally, my thanks to my wife, who could withstand and encourage me till the study is finished.

MAGDI HASSAN
