## DISCUSSION AND JUDGEMENT COMMITTEE

The Vice- President for higher studies and research of Ain-Shams University has approved to form the following committee for the discussion of

1. Prof. Dr. Smadia Abdel Fatah .....  
Prof. of Ped. Ain Shams U. Chairman .....
2. Prof. Dr. Zeinab E.L. Ramly .....  
Prof. of Ped. Al-Azhar U. Member .....
3. Prof. Dr. Zeinab Beshry .....  
Prof. of Neuro-psychology Ain Shams U. Member .....
4. Prof. Dr. Hamed Shatla .....  
Prof. of Ped. Ain Shams U. Member .....

## ACKNOWLEDGEMENT

*I would like to express my deep gratitude to Professor Dr. Zeinab Beshry, Professor of Psychiatry, Faculty of Medicine, Ain Shams University, for giving me the privileges of working under her supervision and for her valuable guidance and advises throughout this study.*

*I am also greatly indebted to my advisor and my Professor Dr. Hamed Shatla, Professor of Pediatrics, Ain Shams University, for his highly appreciated supervision, continuous guidance, and encouragement which made this work come to light.*

*I would also like to thank Professor Dr. Effat Mostafa Hassan, Professor of Microbiology, Faculty of Medicine for Girls, Al Azhar University for her valuable help and continuous guidance and encouragement.*

*I would also like to thank Dr. Gamal Samy, Lecturer in the Medical Department, Institute of Post-graduate Childhood Studies for his encouragement and his meticulous supervision of every possible detail in this study.*

*I would also like to thank Dr. Alaa El Din El Fiky, Lecturer of Gynecology and Obstetrics, Faculty of Medicine, Ain Shams University and Dr. Lamiaa El Saadawy, Lecturer of Microbiology, Faculty of Medicine for Girls, Al Aghar University for helping me sincerely in the practical part of this work.*

*Last but not least, I would like to thank Dr. Ahmed Shoman, Lecturer of Community Medicine for his valuable help and advises.*

*Hayam Nazif*

*To My Parents,  
My Husband  
and  
Children*

*who encouraged and stood by me*

## LIST OF ABBREVIATIONS

<i>Ureaplasma Urealyticum</i>	: U. Urealyticum
<i>Mycoplasma Hominis</i>	: M. hominis
<i>C.N.S.</i>	: Central nervous system
<i>CSF</i>	: Cerebro spinal fluid
<i>LBW</i>	: Low birth weight
<i>VLBW</i>	: Very low birth weight
<i>C.L.D.</i>	: Chronic lung disease
<i>B.P.D.</i>	: Broncho pulmonary dysplasia

## LIST OF TABLES

### In Review of Literature

	Page No
<i>Table 1: Characteristics of Mycoplasmas compared to those of bacteria, chlamydiae and viruses.</i>	5
<i>Table 2: Taxonomy and properties of organisms included in the class mollicutes</i>	7
<i>Table 3: Mycoplasmas of humans</i>	10
<i>Table 4: Metabolic properties of common human pathogenic mycoplasmas.</i>	11
<i>Table 5: Serologic response in mothers and neonates to Mycoplasma hominis.</i>	20
<i>Table 6: Serologic response in mothers and neonate to Ureaplasma urealyticum</i>	21
<i>Table 7: Susceptibility of 11 T-strains to 14 antimicrobial agents in vitro (MIC in broth at pH 6.0).</i>	26
<i>Table 8: Susceptibility of 12 strains of M. hominis antimicrobial agents in vitro (MIC in broth at pH 6.0).</i>	27
<i>Table 9: Characteristics of Genital Mycoplasma.</i>	36
<i>Table 10: Sources of Mycoplasmas Isolated from Newborn Infants</i>	40
<i>Table 11: Outcome of culture for large-colony mycoplasmas at 8 time-intervals after birth.</i>	42

<i>Table 12: Outcome of culture for large-colony mycoplasmata at 8 time-intervals after birth.</i>	43
<i>Table 13: Factors often Associated with Premature Birth.</i>	54
<i>Table 14: Factors often associated with intrauterine growth retardation</i>	55
<i>Table 15: Birth weight and genital mycoplasmas in pregnancy</i>	59
<i>Table 16: Viral Parasitic, and Spirochetal Agents Associated with Fetal and Infant Morbidity.</i>	64
<i>Table 17: Clinical Manifestations of Infection in the Newborn Infants.</i>	67
<i>Table 18: The dosage of Antibiotics commonly used in Newborn Infants.</i>	75

## LIST OF TABLES

### In Results

	Page No
<i>Table 1: The correlation between vaginal colonization by <i>Ureaplasma urealyticum</i> and the social class.</i>	104
<i>Table 2: The correlation between vaginal colonization by <i>M. hominis</i> and the social class.</i>	104
<i>Table 3: The correlation between amniotic colonization by <i>Ureaplasma urealyticum</i> and the social class.</i>	105
<i>Table 4: The correlation between amniotic colonization by <i>M. hominis</i> and the social class.</i>	105
<i>Table 5: The correlation between neonatal throat colonization by <i>Ureaplasma</i> and the social class.</i>	106
<i>Table 6: The correlation between neonatal throat colonization by <i>Mycoplasma hominis</i> and the social class.</i>	106
<i>Table 7: The association between vaginal and amniotic fluid colonization by <i>Ureaplasma urealyticum</i> in the low social class group.</i>	107
<i>Table 8: The association between vaginal and amniotic fluid colonization by <i>Ureaplasma urealyticum</i> in the high social class group.</i>	107
