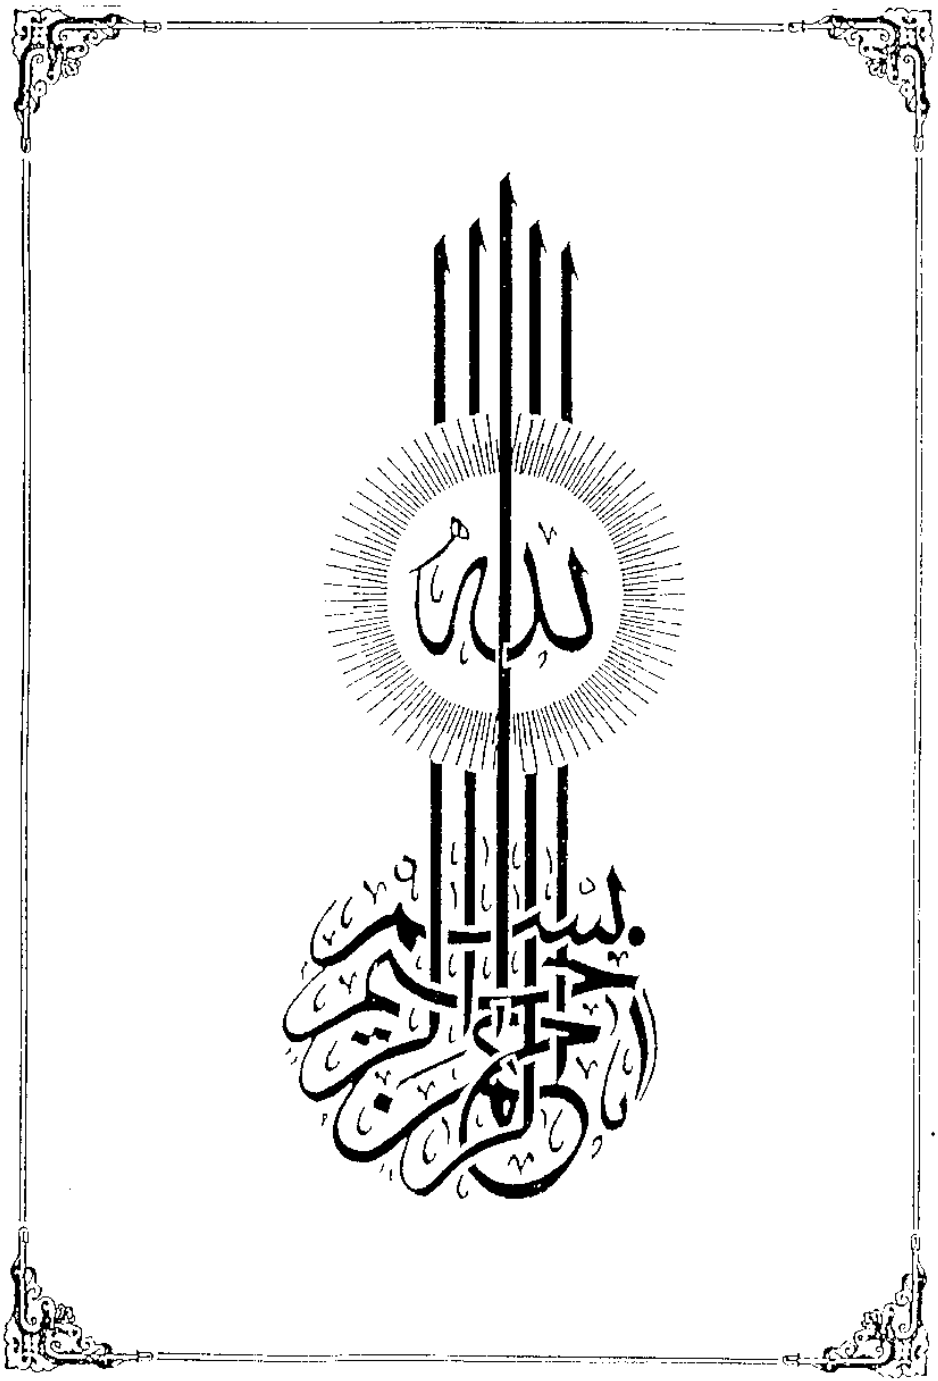
GEOCHEMISTRY AND URANIUM DISTRIBUTION OF WADI EL MELLAHA-WADI UM DIRRA GRANITE, ESH EL MELLAHA RANGE, EASTERN DESERT, EGYPT.

BY
WAFAA HOSNY MOHAMED SALEH
B. Sc. Geochemistry

THESIS
SUBMITTED FOR DEGREE OF MASTER OF SCIENCE
(GEOLOGY)

TO
FACULTY OF SCIENCE
AIN SHAMS UNIVERSITY
CAIRO, EGYPT.

Cairo, 1996



TO MY PARENTS,
TO MY HUSBAND,
AND MY LOVELY
DAUGHTER
DINA

NOTE

The present thesis is submitted to the Geology Department, Faculty of Science, Ain Shams University, in partial fulfillment of the requirements for the degree of Master of Science in Geology.

Beside the research work materialized in the thesis, the candidate, Wafaa Hosny Mohamed Saleh, has attended ten post-graduate courses for one year in the following topics:

1. Mineralogy.
2. Geochemistry.
3. Igneous Petrology.
4. Metamorphic Petrology.
5. Sedimentary Petrology.
6. Sedimentation.
7. Field Geology and Mapping.
8. Geostatistics and Introduction to BASIC.
9. Laboratory Techniques.
10. Ore Petrology.

She has successfully passed the final exam. in the above mentioned courses.

Prof. Dr. W.M. Abdelmalik

Chairman of Geology Department
Faculty of Science
Ain Shams University

ACKNOWLEDGEMENTS

The author wishes to express her deep gratitude to Asst. Prof. Dr. B. El Kaliouby, Geology Department, Faculty of Science, Ain Shams University, for his supervision, and critical reading of this thesis.

Special thanks are indebted of Prof. Dr. A.A. Abdel-Monem, Nuclear Materials Authority (NMA) for his close and continuous support as well as critical reading and proving of many verious of the manuscript. Without this intimate supervision, this work could not be developed in the actual way presented.

Cordial thanks are due to Prof. Dr. A.B. Salman (NMA) for his encouragement, supervision of the field work and sincere guidance during the different stages of this work.

Particular thanks are due to Prof. Dr. Nabil T. El-Hazek, President of Nuclear Materials Authority, and Prof. Dr. Hussein Abdel Mohsen Hussein (NMA).

Particular thanks are due to Dr. M.H. Shalaby, Dr. D.M. El Khouly and all members of the North Eastern Desert Geologic Expedition (NMA) for their assistance during the field work.

Special thanks are also due to Prof. Dr. M.Y. Attawiya and the staff of X-Rays Dept. for their help in trace elements analyses. Dr. H.A. Hussein and his staff are gratefully acknowledged for their help offered in the radiometric analyses of U and Th.

Hearty thanks are due to my colleagues in the Petrography Laboratory (NMA), especially my friend Miss. Nabila A. Ahmed, Mrs. Ebtsam A. Saleh is acknowledged for helping in data processing using the computer as well as typing many versions of this manuscript.

Hearty thanks are extended to my big family (my colleagues) in the Isotope Geology Department, especially Mr. Samir Abdel Hai, and all who have helped directly or indirectly during the progress of this work.

Hearty thanks are due to my family, especially my parents and my husband for their continuous encouragment during the different steps of this work.
