INTERLEUKIN-10 IN RHEUMATIC FEVER

Thesis

Submitted for partial fulfillment of
Master Degree in **Pediatrics**

By
Naglaa Mahmoud Mohamed Rawy
M.B.,B.Ch., Ain Shams University

618.92 RAW

Under supervision of

Prof. Dr. Alyaa Amal Kotby
Assistant Professor of Pediatrics
Faculty of Medicine, Ain Shams University

Dr. Neveen Ramsis Wissa
Assistant Professor of Clinical Pathology
Faculty of Medicine, Ain Shams University

Dr. Mona Moustafa El-Ganzoury
Lecturer of Pediatrics
Faculty of Medicine, Ain Shams University

Faculty of Medicine
Ain Shams University
1997

Acknowledgment

I would like to express my deep gratitude and appreciation to my ***Prof. Alyaa Amal Kotby,*** Assistant Professor of Pediatrics, Faculty of Medicine, Ain Shams University for granting me the favour of working under her supervision and her continous encouragment, generaous advice, criticism, fruitful comments and patience throughout the whole work.

I wish to express my great thankfulness to ***Prof. Neveen Ramsis Wissa***, Assistant Professor of Clinical Pathology, Faculty of Medicine, Suez Canal University for her kindness, great help, valuable guidance and continous support, without her unlimited efforts this research would not have been completed.

Grateful acknowledgment and deep appreciation are conveyed to ***Dr. Mona Moustafa El-Ganzoury***, Lecturer of Pediatrics, Faculty of Medicine, Ain Shams University for her constant assistance, elegant supervision, valuable direction and her great efforts.

I would like to express my deep gratefullness to my parents for their care, help and support throughout my life.

To every one who participated in some way or another to let this work come to such a final picture, I owe my thanks and gratitude.

Last, but not the least, my deep thanks and best wishes are conveyed to the patients of this study as well as their parents, as their cooperation was indispensable for the performance of this work.

LIST OF TABLES

Tab. No.	Title	Page
1	Cross reactive antigens of GABHS and human host	13
2	Guidlines for the diagnosis of initial attack of rheumatic fever, jones critieria, 1992 update	28
3	Showing recommended anti-inflammatory agents for acute rheumatic fever	48
4	Types of cytokines	54
5	Chracteristics of major cytokines	55
6	Clinical relevance of cytokines in various diseases	65
7	Cytokines in treatment	65
8	The mean age, and sex percentage among the various studied groups	91
9	The clinical data of group I patients (ARF)	93
10	The clinical data of group II patients (past history of RF)	95
11	The percentage of rheumatic arthritis and rheumatic carditis in each group	96
12	The mean levels of ESR (mm/hr), ASOT (Todd units), CRP and IL-10 level (pg/ml) among patients of GI	98
13	The mean levels of IL-10 among the patients of GI according to the diagnosis	99

Central Library - Ain Shams University

14	The mean levels and ranges of ESR (mm/hr), ASOT (Todd units), CRP and IL-10 level (pg/ml) among patients of GII	101
15	The mean levels of IL-10 among the patients of GII according to the diagnosis	102
16	Comparison between the mean IL-10 level among the three groups	103
17	Comparison between mean levels of IL-10 in both males and females in all patients	104

LIST OF FIGURE

Fig. No.	Title	Page
1	Streptococcal structures and cross reactive antigens	12
2	The neuro-endocrine immunologic (NEI) network	56
3	Cytokine cascade: Initial antigen phagocytic cell interaction	58
4	Cytokine cascade: Polarization of immune response	60
5	Cytokine cascade: Allergic inflammation and parasitic infection	62
6	Mechanism of action of interleukin-l0	70
7	Interleukin l0 a key cytokine in the pathogenesis of systemic lupus erythematosus	47
8	Incidence of males and females in the various studied groups	91
9	The distribution of rheumatic arthritis and rheumatic carditis in each group	96
10	Mean IL-l0 level among patients of GI according to the diagnosis	99
11	Mean IL-l0 level among patients of GII according to the diagnosis.	102
12	Comparison between the mean IL-l0 level among the three groups	103

Central Library - Ain Shams University

13	Correlation between IL-10 (pg/ml) and ESR (mm/hr) in group I	107
14	Correlation between IL-10 (pg/ml) and ASOT (Todd unit) in group I	108
15	Correlation between IL-10 (pg/ml) and ESR (mm/hr) in group II	109
16	Correlation between IL-10 (pg/ml) and ASOT (Todd unit) in group II	110
17	Correlation between IL-10 (pg/ml) and duration of the disease in the studied patients	111
18	Correlation between IL-10 (pg/ml) and No. of previous rheumatic attacks in the studied patients	112
