TO MY FAMILY

ACKNOWLEDGMENT

I would like to express my profound and sincere gratitude to **Professor Dr. Heba Khalil El-Deeb**, professor of Radiodiagnosis, Faculty of Medicine, Ain Shams University for giving me the honor to work under her supervision and for her kind guidance and generous help and valuable directions that made this work possible.

I was fortunate to carry out this work under the guidance of **Dr. Yasser Abd El-Azim Abbas**, Lecturer of Radiodiagnosis, Faculty of Medicine, Ain Shams University, who offered me much of his time and experience.

My deepest appreciation goes to **Professor Dr. Hoda El-Deeb**, Professor of Radiodiagnosis, Ain Shams University, and chairman of MR unit at Ain Shams Specialized Hospital, who offered me a great help along the way.

Finally, I would like to thank all members of the MR unit, my professors, senior staff and colleagues at Radiology Department, Ain Shams University, for their favorable assistance and kindness.

Contents

	Page No.
1) Introduction and aim of the work.	
2) Anatomical considerations.	1
3) Pathological lesions involving the wrist joint.	54
4) Physics, techniques and normal appearance of MRI of the wrist joint.	73
5) MRI manifestations of different wrist joint lesions with illustrative cases.	153
6) Summary and conclusion.	201
7) References.	207
8) Arabic summary.
