ACKNOWLEDGMENT

First and foremost, thanks are due to our God, the most beneficial and merciful.

It is a great honour to me to have this opportunity to express my great indebtedness, deep appreciation and supreme gratitude to Prof. Dr. Ahmed Okasha, Professor of Neuropsychiatry, Ain-Shams University, for suggesting the topic of this review, his fatherly guidance, kind supervision and encouragement throughout this work.

Dr. Okasha has given me much of his advice and valuable suggestions. From him I learned a lot and to him I much more than thankful.

Also, I would like to express my utmost appreciation to Prof. Dr. Mohamed Refaat El-Feky, Professor of Neuropsychiatry, Ain-Shams University for his stimulating interest, unfailing kindness and helpfulness to me from the time of starting this work. I much obliged to Dr. Refaat for his constructive advice which expanded my view greatly. I wish him supreme success and happiness.

I wish to express my thanks to Dr. Safia Effat, Assistant Professor of Neuropsychiatry, Ain-Shams University, for her support, guidance, supply of literature and meticulous revision of this work.

I also wish to thank my colleagues at the Neuropsychiatric Department, Ain-Shams University, who helped me one way or another during my work.

Lastly, I would like to express my feelings of admiration, love and respect to my family whose support was overwhelming.

إهداء

إلى أبي يرحمه الله
سائلاً "الله" الكريم أن يقبل كل حرف صلاةً
رحمةً وسجودَ مغفرةٍ لروح هذا الشيخ الجليل
الذي طالما أضمني فتاوى بحب العلم وأهله.

CONTENTS

Chapter	page
I. Introduction.....	1
II. Aims of the work.....	11
III. History of substance abuse :	12
- History of substance and drug abuse allover the world	12
- History of drug intake among young people in Egypt	18
IV. The recent status of narcotic problem in Egypt.....	27
