

١٠١٠٤ / ٤

FLORAL MORPHOLOGY OF SOME TAXA OF SOLANEAE IN EGYPT

THESIS

Submitted in Partial Fulfilment
For the Degree of
MASTER OF SCIENCE
(BOTANY)

By

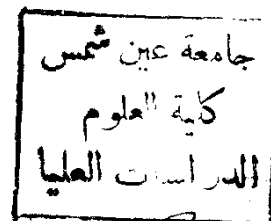

MOHAMED HESHAM ABD EL-HAMID LOUTFY

B. Sc. (1979)

This

THESIS has not been submitted for a degree
at this or at any other University.

The literature cited shows how far I have
availed my self of the work of the others.

Mohamed Hesham Abd El Hamid Loutfy

COURSES STUDIED

In addition to this THESIS, the student had attended lectures dealing with the branches stated hereafter. He passed successfully the examination as well (1982).

These courses are:-

- . Plant Taxonomy
- . Plant Microbiology.
- . Plant Cytology and Genetics.
- . Plant Physiology.

ACKNOWLEDGEMENT

The author is greatly indebted to Prof. Dr.S.F. Khalifa, Professor of Plant Taxonomy, Botany Department, Faculty of Science, Ain Shams University, for suggesting the point of research and kindly supervising this work.

The author is deeply grateful to Prof. Dr. Amin Erfan Dewedar, Head of the Department of Natural History, Faculty of Education, Ain Shams Univ., for providing valuable facilities.

My sincerest gratitude is presented to Prof. Dr. H.A.Foda, Ex-head of the Botany Department, Faculty of Science, Ain Shams Univ., and present head, Prof. Dr. A.S. Al-Nowaihi for providing valuable encouragements.

Sincere thanks are also offered to all other staff members of Botany and Natural History Departments for their continuous encouragement.

The author
