

***STUDIES ON THE ELECTROCHEMICAL BEHAVIOUR  
OF SILVER METAL IN SOME AQUEOUS SOLUTIONS***

Thesis

Submitted in partial fulfilment of the requirement  
of M.Sc.Degree in Chemistry

Presented by :

Mohamed Abdel Hamid Amin Ismail

B.Sc. (1992)

Chemistry Department

Faculty of science

Ain Shams Univeristy

TO

Faculty of science

(1996)

Studies On The Electrochemical Behaviour  
of Silver Metal In Some Aqueous Solutions

Thesis Advisor

Approved

Prof. Dr. Sayed Sabet Abdel Rehim

Prof. of Physical Chemistry, Faculty of Science,

Ain Shams University.

Dr. Magdy Ahmed Mahmoud Ibrahim

Lectural of Physical Chemistry, Faculty of Science,

Ain Shams Univeristy.

Dr. Hamdi Hassanien Hassan

Lectural of Physical Chemistry, Faculty of Science,

Ain Shams University.

Head of Chemistry Department

Central Library - Ain Shams University

A.F.M. Fahmy  
Prof. Dr. A.F.M. Fahmy

Name of student : Mohamed Abdel Hamid Amin Ismail

Degree Awarded : B.Sc. in Chemistry, 1992

Faculty : Science

University : Ain Shams

## **The Theoretical Curricula For The Degree**

The student in addition to this thesis has attended lectures dealing with the branches stated hereafter. He passed successfully the examination as well. These courses are:

- Advanced Electrochemistry
- Statistical Thermodynamics
- Physical polymer chemistry
- Advanced Chemical Kinetics
- Quantum Mechanics
- Surface Chemistry
- Computer Science
- Cement Chemistry
- Catalysis
- English

*A. F. M. Fahmi*

## Acknowledgment

The author wishes to thank Prof. Dr. *A.M. Azzam* for his help and assistance.

The author wishes to express his sincere appreciation and gratitude to Prof. Dr. *Sayed Sabet Abdel Rehim*, Professor of Physical Chemistry, Faculty of Science, Ain Shams University, for suggesting and supervising this work.

The author is greatly indebted to Prof. Dr. *Saad Abdel Wahaab Mohamed*, Professor of Physical Chemistry, Faculty of Science, Ain Shams University, who gave me the chance to carry out this work in his lab.

The author is deeply indebted to Dr. *Magdy Ahmed Mahmoud*, lectural of Physical Chemistry, Faculty of Science, Ain Shams University, for his kind help and valuable guidance.

Many thanks are also due to Dr. *Hamdi Hassanien Hassan*, lectural of Physical Chemistry, Faculty of Science, Ain Shams University, for his encouragement.
