قالوا سبحانك لا علم لنا  
إلا ما علمتنا إنك أنت  
العليم الحكيم

صدق الله العظيم

﴿سورة البقرة - الآية ٣٢﴾

***To My Family***

# Acknowledgment

First, thanks are all due to **God** for blessing this work until it has reached its end, as a part of his generous help throughout my life.

I would like to direct special thanks to **Prof. Dr. Kadry Merham Gergis**, Professor of Anesthesia and Intensive Care, Faculty of Medicine, Ain Shams University, for the great support and encouragement he gave me throughout the whole work. It is a great honor to work under his guidance and supervision.

I would like to express my sincere gratitude to **Prof. Dr. Sohair Abbas Sadek**, Professor of Anesthesia and Intensive Care, Faculty of Medicine, Ain Shams University, for her close supervision, continuous help, and the tremendous effort she has done in the meticulous revision of the whole work.

Also, I am greatly honored to express my utmost thanks to **Dr. Seham Hussein Mohammed**, Lecturer of Anesthesia and intensive Care, Faculty of Medicine, Ain Shams University, from whom I received faithful supervision, valuable suggestions, and continuous guidance throughout this work.

***Sameh Mohammed Osman***

## List of Tables

No.	Table	Page
Table (1) :	Differences between acute and chronic pain.	20
Table (2) :	Examples of Yin-Yang opposition.	23
Table (3) :	Syndrome differentiation according to Yin and Yang.	23
Table (4) :	Differentiation of Yin and Yang syndromes according to four diagnostic methods	24
Table (5) :	Classification of things according to the theory of five elements.	26
Table (6) :	Topic outline of theories for electrical activity of acupuncture points.	38
Table (7) :	Standards for proportional measurement.	42
Table (8) :	Classification of meridians and collaterals.	45
Table (9) :	Common neurotransmitters involved in acupuncture..	81, 82
Table (10) :	Lengths of filiform needles.	91
Table (11) :	Gauges of filiform needles.	92
Table (12) :	Adverse effects associated with acupuncture treatment organized by category.	116
Table (13) :	Common syndromes associated with chronic pain.	118
Table (14) :	Six important distal points.	126
Table (15) :	Specific points.	127
Table (16) :	Guidelines for lateral location of Jiaji points at T <sub>4</sub> , T <sub>9</sub> , T <sub>10</sub> , and T <sub>12</sub> .	133
Table (17) :	Prescription for trigeminal neuralgia.	134
Table (18) :	The WHO interregional seminar list of diseases that lend themselves to acupuncture treatment.	136

## List of Figures

No.	Figure	Page
Figure (1) :	Pain pathway	7
Figure (2) :	Peripheral sensitization	10
Figure (3) :	Central sensitization	12
Figure (4) :	NMDA receptors	13
Figure (5) :	Gate control theory of pain.	15
Figure (6) :	Pattern of growth and decline of acupuncture-induced analgesia	30
Figure (7) :	Jing acupoint specimen showing capillary loop within dermal papilla	37
Figure (8) :	Middle finger measurement	39
Figure (9) :	Thumb measurement	39
Figure (10) :	Four-finger measurement	40
Figure (11) :	Proportional measurements	43
Figure (12) :	The lung channel	47
Figure (13) :	The heart channel	48
Figure (14) :	The pericardium channel	50
Figure (15) :	Small intestine channel	51
Figure (16) :	Large intestine channel	53
Figure (17) :	Sanjiao channel	55
Figure (18) :	Liver channel internal course	57
Figure (19) :	Kidney channel internal course	59
Figure (20) :	Spleen channel internal course	60
Figure (21) :	Urinary channel internal course	62
Figure (22) :	Stomach channel internal course	63
Figure (23) :	Gallbladder channel internal course	66
Figure (24) :	Du Mai channel	68

No.	Figure	Page
Figure (25) :	Ren Mai channel	69
Figure (26) :	Ear	71
Figure (27) :	Ear with representation	72
Figure (28) :	Schematic representation of presynaptic inhibition	79
Figure (29) :	Laser pen, apparatus used for laser acupuncture	87
Figure (30) :	The structure of the filiform needle	91
Figure (31) :	Commonly used postures in acupuncture	93
Figure (32) :	Inserting the needle aided by pressure from the finger of the pressing hand	95
Figure (33) :	Inserting the needle by coordinating the puncturing and pressing hands	96
Figure (34) :	Inserting the needle by stretching the skin	96
Figure (35) :	Inserting the needle by pinching the skin	97
Figure (36) :	Types of angles	98
Figure (37) :	Lifting and thrusting	100
Figure (38) :	Rotating	101
Figure (39) :	Scraping	102
Figure (40) :	Flicking	102
Figure (41) :	The three-edged needle	105
Figure (42) :	Holding the three-edged needle	105
Figure (43) :	The cutaneous needle	107
Figure (44) :	Holding the cutaneous needle	107
Figure (45) :	The intradermal needle	108
Figure (46) :	Electro-stimulator used for electro-acupuncture	111
Figure (47) :	Points which may be used in the treatment of pain on the opposite side of the body.	128
