ACKNOWLEDGMENTS

No words can fulfill the feeling of gratitude and respect, I carry to professor **Dr. Mohamad Ashraf Mohamad Farouk Kortam**, *Ass. professor of Obstetrics and Gynecology, faculty of medicine, Ain Shams University*, for his valuable guidance, kind supervision and advice.

I would like to express my deepest gratitude to **Dr. Rowaa Abd El Azeem Mostafa**, *lecturer in Obstetrics and Gynecology, faculty of medicine, Ain Shams University*, who honored me by his continuous help and encouragement.

I would like to express my deepest thanks and appreciation to **Dr. Mona Ahmad Wahba**, *Ass. professor of clinical pathology, faculty of medicine, Ain Shams University*, for her great help in the practical part of this study.

My thanks cannot be complete without my thanks to my family, my colleagues and patients for their help and support.

LIST OF THE TABLES OF THE REVIEW

Pre-eclampsia : indications of severity 22
Cytokine Groups 44

LIST OF THE FIGURES OF THE REVIEW

A model for the effects of PE on the hemostatic system ...26

LIST OF THE TABLES OF THE RESULTS

Comparison between patients and controls as regards different demographic variables 80
Comparison between patients and controls as regards blood pressure measurement 81
Comparison between patients and controls as regards serum VEGF levels 83
Comparison between mild cases and controls as regards serum VEGF levels 85
Comparison between severe cases and controls as regards serum VEGF levels 87
Comparison between severe and mild cases as regards serum VEGF levels 89
Relation between serum VEGF levels and degree of proteinuria in the study group.....91
Correlation between serum VEGF levels and other

Central Library - Ain Shams University

demographic variables and the control group 93
Correlation between serum VEGF levels and age in the study group.....94
Correlation between serum VEGF levels and parity in the study group.....96
Correlation between serum VEGF levels and No. of abortions the study group 98
Correlation between serum VEGF levels and gestational age in the study group 100
Correlation between serum VEGF levels and blood pressure measurement in the study group. 102

LIST OF THE FIGURES OF THE RESULTS

Comparison between patients and controls as regards blood pressure measurement 82
Comparison between patients and controls as regards serum VEGF levels 84
Comparison between mild cases and controls as regards serum VEGF levels 86
Comparison between severe cases and controls as regards serum VEGF levels 88
Comparison between severe and mild cases as regards serum VEGF levels 90
Relation between serum VEGF levels and degree of
