Dr. . . . . . .

Dr. . . . . . .

(Committee in charge)

Date : / /1995.

ACKNOWLEDGMENT

i to express my deepest gratitude and great thanks to Prof. Dr. Ahmed Hassan ef (D. Sc.), professor of insect physiology, Faculty of Science, Ain Shams University supervision, valuable suggestion and encouragement of this work with his fruitful ion and knowledge.

i also to express my appreciation and gratitude to Prof. Dr. Mostafa Sayed kroury, Chief researcher, Biological Control Department, Plant Protection Research ite, Agricultural Research Centre, Ministry of Agriculture for his supervision, fruitful ce, sincere help and valuable advice.

articularly indebted to Dr. Mona Mahmoud El-Agoze, Assist. Prof. of Entomology, y of Science, Ain Shams University for participation in suggesting the point of h, constructive criticism and help throughout this work.

s are also due to Prof. Dr. Bahira El-Sawaf, head of Entomology Department, y of Science, Ain Shams University. Thanks to all members of Department of ology, Faculty of Science, Ain-Shams University and Biological Control Research ment, Plant Protection Research Institute for their continuous encouragement, tion and sincere help.
