ACKNOWLEDGMENT

I have the greatest honour to be supervised by **Prof. Motasem Salah Amer**, Prof. Of Internal Medicine and Geriatrics. Ain Shams University Geriatrics Dep. I would like to express my deepest gratitude to him for providing me with this wonderful opportunity to pursue such an interesting line of research and for his guidance, encouragement and sincere supervision.

I take this opportunity to express my appreciation and great thanks to **Prof. Dr. Ahmed Kamel Mortagy**, Prof. of Geriatrics , Ain Shams university, Department of Geriatrics for his collaborative work, valuable suggestions and moral support which made the accomplishment of this thesis possible.

I would like to express my thanks to **Prof. Dr. Mohamed Nagib El-Sabwa**, Perofessor of Clinical psychology, Faculty of Arts , Cairo University, for his great help and advice, without his efforts this work would have been difficult to complete.

Also, I would like to express my thanks to **Dr. Mohamed Abdel Fatah El-OkI**, Assistant lecturer Geriatrics. Ain Shams University, for his deep and valuable suggestion and support through the work.

All thanks and gratitudes to my colleagues at department of geriatrics. Ain Shams university, Faculty of Medicine.

*Introduction
and
Aim of the work*
