ACKNOWLEDGMENT

First of all, my prayerful gratitude should be submitted to God, the most gracious, most merciful whose help I always seek, while I try humbly to lead on his path, and without his willing I will achieve nothing.

I would like to express my deep thanks and sincere gratitude to Professor Doctor AHMED ABD EL TAWAB, Professor of Radiodiagnosis, Faculty of Medicine, Ain Shams University for granting me the privilege of working under his supervision, and for his generous advice and support.

I also wish to express my cordial thanks and appreciation to Dr. MAHA ABD EL RAOUF, Lecturer of Radiodiagnosis, Faculty of Medicine, Ain shams University for her remarkable effort, kind help and great support throughout this work.

I would also like to thank my friends who had the patience to help me in whatever way they could.
