ACKNOWLEDGMENT

I would like to express my deepest gratitude and atmost appreciation to **Prof. Dr. Mohamed Anwar El Etribi** Professor and Head of Neurology Unit, Ain Shams University for his continuous warm encouragement, generous supply of references and kind supervision. I feel greatly honoured to work under his supervision.

I am deeply greatefull to **Prof. Dr. Mona Raafat** Professor of Neurology, Ain Shams University, for her generous help. sympathetic support and valuable supervision. This work owes much to her careful and constant guidance.

My deepest gratitude goes to **Dr. Taha Kamel Alloush,** Assistant Professor of Neurology, Ain Shams University for his kind help and assistance during the work.

I would like to sincerely thank **Dr. Mohamed Mahmoud Mostafa**. Lecturer in Neurology, Ain Shams University for his sincere help in this work.

I would like to dedicate my very special thanks **to Dr. Mahmoud Hemeida**, Lecturer in Neurology and the director of stroke unit, Ain Shams specialized Hospital for his kind help during the work.

Finally I would like to give my very strong and warm thanks to all members of the Neurology Department, also I am extremelly thankful to all the patients wishing them a very soon recovery.

LIST OF ABRREVIATIONS

ACA	Anterior cerebral artery.
ACoA	Anterior communicating artery
AICA	Anterior inferior cerebellar artery
AVM	Arterio venous malformation
BA	Basilar artery
BCF	Cerebral blood flow
CCA	Common carotid artery
DV	Diastolic velocity
ECA	External carotid artery
EDV	end diastolic velocity
ICA	Internal carotid artery
ICP	Intracranial pressure.
MCA	Middle cerebral artery
MV	Mean blood velocity
OA	Ophthalmic artery
PCA	Posterior cerebral artery
PCoA	Posterior communicating artery
PI	Pulsatility index
PICA	Posterior inferior cerebellar artery
PSV	peak systolic velocity
PTI	Pulsatility transmission index
RI	Resistance index of pourecelot
SCA	Superior cerebellar artery
SV	Systolic velocity
TCD	Transcranial Doppler
TICA	Terminal internal carotid artery.
VA	Vertebral artery

LIST OF TABLES

Table No.		Page
1	Summary of vessel identification criteria.....	26
2	Normal values of mean blood velocity.	39
3	Classification of diabetes	63
4	Prevalence of Insulin dependent diabetes in general population.....	67
5	General characteristics of IDDM and NIDDM..	77
6	Initial laboratory findings in diabetic keto acidosis.....	80
7	Initial laboratory findings in hyperosmolar coma	85
8	The chronic complications of diabetes.....	87
9	Predisposition to lipoprotein abnormalities in type I and type 2 diabetes	96
10	Classification of diabetic neuropathy.....	104
11	Subjects characteristics.....	119
12	Characteristics of CBF velocity of the control group	120
13	Characteristics of CBF velocity of the diabetic group	121
14	Lipid profile, fasting blood glucose, duration of diabetes and other risk factor including hypertension and heart diseases of diabetic patients	122
15	Characteristics and principle CT scan and TCD finding in the diabetic with stroke group.....	123
16	Lipid profile fasting blood glucose, duration of diabetes and other risk factor including hypertension and heart diseases of diabetic with stroke patients.....	124

Central Library - Ain Shams University

LIST OF TABLES

Table No.		Page
17	Comparison of the mean blood flow velocity between diabetic and control groups.	126
18	Comparison of the mean blood flow velocity between diabetic with stroke and control groups	128
19	Comparison of the mean blood flow velocity between diabetic and diabetic with stroke groups.....	130
20	Comparison of lipid profile in the patient groups.....	133
21	Correlation between mean flow velocity and risk factors in diabetic group	135
22	Correlation between mean flow velocity and risk factors in diabetic with stroke group ...	136

LIST OF FIGURES

Figure No.		Page
(1.1)	The Doppler effect	11
(1.2)	Reflection of ultrasound beam	11
(1.3)	Arrangement for obtaining Dopper Signals	11
(1.4)	Continous wave Doppler instrument	12
(1.5)	Pusled Doppler instrument	12
(1.6)	Ultrasound transducer properties	13
(1.7)	Ultrasound transducer properties	13
(1.8)	Ultrasound transducer properties	13
(1.9)	Ultrasound transducer properties	13
(2.1)	Diagnostic features of Doppler spectral wave form	41
(2.2)	The a coustical windows	41
(2.3)	The subdivisions of the temporal window	42
(2.4)	The circle of willis	42
(2.5)	Insonation of MCA	43
(2.6)	Insonation of ACA/MCA bifurcation	43
(2.7)	Insonation of the ACA	44
(2.8)	Insonation of the TICA	44
(2.9)	Insonation of the PCA	45
(2.10)	Insonation of the OA	45
(2.11)	Insonation of the carotid siphon and opthalmic artery	46
(2.12)	Insonation of VAs	46
(2.13)	Insonation of BA	46
