

**A STUDY OF BRONCHOALVEOLAR LAVAGE
FLUID INTERLEUKIN-6 IN PRETERM
VENTILATED INFANTS AFTER PROLONGED
RUPTURE OF MEMBRANES**

THESIS

Submitted for Partial Fulfillment of
Master Degree in Paediatrics

By

Ayman Mohamed Kamal Ahmed

M.B., B.Ch.

Supervised By

Prof. Dr.

Kotb Ahmed Tolba

*Professor of Pediatrics
Ain Shams University*

Prof. Dr.

Mohamed Fathalla Moustafa

*Professor of Pediatrics

ACKNOWLEDGEMENT

Thanks to ALLAH.

I would like to express my deepest thanks and profound gratitude to **Prof. Dr. Kotb Ahmed Tolha**, Professor of Pediatrics, Faculty of Medicine, Ain Shams University, for his kind encouragement and help.

I can find no words to express my extreme indebtedness and thanks to **Prof. Dr. Mohamed Fathalla Moustafa**, Professor of Pediatrics, Faculty of Medicine, Ain Shams University, for his great help, his continuous guidance and time.

I am also greatly indebted to **Prof. Dr. Moustafa Mohamed El-Rasad**, Professor of Biochemistry, Faculty of Medicine, Ain Shams University, for his great help and support in the practice part of this work.

Also my deep thanks are conveyed to **The Staff** members of NICU of Gynaecology and Obstetrics Hospital of Ain Shams University, and to everyone who participated in some way or the other to let this work come to such a final picture.

Lastly, I would like to thank **The Patients** involved in this study, without them this work would not have been accomplished

Ayman Mohamed Kamal

LIST OF TABLES

	Page
Table (1) : Features that distinguish cytokines from classical hormones.	4
Table (2) : Types of cytokines and their properties	5
Table (3) : Sepsis score.	46
Table (4) : Comparison between control, PROM without sepsis, PROM with sepsis and sepsis groups regarding weight.	56
Table (5) : Comparison between control, PROM without sepsis, PROM with sepsis and sepsis groups regarding gestational age.....	56
Table (6) : Comparison between control, PROM without sepsis, PROM with sepsis, and sepsis groups regarding red blood cells count.	57
Table (7) : Comparison between control, PROM without sepsis, PROM with sepsis, and sepsis groups regarding white blood cells count.	59
Table (8) : Comparison between control, PROM without sepsis, PROM with sepsis, and sepsis groups regarding haemoglobin level.	61
Table (9) : Comparison between control, PROM without sepsis, PROM with sepsis, and sepsis groups regarding platelets count.	63
Table (10) : Mean bronchoalveolar lavage fluid IL-6 level in all studied patients compared to control.....	65
Table (11) : Comparison between control, PROM without sepsis, PROM with sepsis, and sepsis groups as regards mean BALF IL-6 level.	66
Table (12) : Comparison between mean BALF IL-6 level in neonates with (Klebsiella) infection and those infected by other organisms according to the BALF culture.....	68

Table (13) : Comparison between RDS group, pneumonia group, and sepsis group regarding mean BALF IL-6 level.	69
Table (14) : Comparison between neonates with sepsis and PROM, and those with sepsis only regarding mean serum level C-reactive protein.....	71
Table (15) : Comparison between survivors and non survivors as regards mean BALF IL-6 level.....	72
Table (16) : BALF IL-6 test results in neonates with PROM.	73
Table (17) : Sensitivity, specificity, predictive value positive, predictive value negative and accuracy of the test in prediction of sepsis among neonates with PROM.	74

LIST OF FIGURES

	Page
Fig. (1) : Mean RBCs count in control, PROM and sepsis group.	58
Fig. (2) : Mean WBCs count in control, PROM and sepsis group.	60
Fig. (3) : Mean haemoglobin level in control, PROM and sepsis group.	62
Fig. (4) : Mean platelets count in control, PROM and sepsis group.	64
Fig. (5) : Mean IL-6 level in control, PROM and sepsis group.	67
Fig. (6) : Mean IL-6 level in RDS, pneumonia and sepsis.	70
Fig. (7) : Mean IL-6 level according to outcome.	72
Fig. (8) : IL-6 values in the 4 groups and cut off point at (88.9 pg/ml).	75
Fig. (9) : Correlation between BALF IL-6 and serum CRP in sepsis group.	76
Fig. (10) : Correlation between IL-6 and WBCs in sepsis.	77
Fig. (11) : Correlation between IL-6 and WBCs in PROM.	78
Fig. (12) : Correlation between IL-6 and CRP in PROM with sepsis.	79
