To My Family

ACKNOWLEDGMENTS

I would like to express my deep appreciation and respect to **Prof. Dr. Wafik Hefny**, Professor Of Ophthalmology, Ain Shams University, for his kind approval to supervise this work, contineous encouragement and accurate advice.

I am deeply indepted and grateful to **Prof. Dr. Sherif Badr**, Professor Of Ophthalmology, Ain Shams University, not only for his keen help and active support, but also for his time and tremendous efforts he was devoted for the supervision of this work.

I wish to extend my real thankfullness to all the *Staff of Ophthalmology*, Ain Shams University, especially *vitreoretinal surgeons*. Special thanks to *Dr. Hassan Hefny*, lecturer Of Ophthalmology for his unlimited guidance and *Dr. Sherif Embaby*, Assistant lecturer Of Ophthalmology for his fine photographic work.

I also wish to thank *Eng. Tarek Yehia* for his invaluable assistance in printing this work.

Ahmed Shawki
1996

LIST OF CONTENTS

	<i>Page</i>
List of Figures	IV
List of Tables	VI
List of Abbreviations	VII
Anatomy of the retinal periphery	1
Diseases associated with GRBs	7
Pathology and pathogenesis	16
Management of GRBs	41
Controversial aspects of management	89
Fellow eye of nontraumatic GRBs	97
Summary	103
References	107
Arabic Summary	

LIST OF FIGURES

	<i>Page</i>
(Fig.1) Expected safe entry sites for location of the ora serrata	3
(Fig.2) Anatomy of the vitreous base.....	3
(Fig.3) Vitreous base.....	5
(Fig.4) Wagner disease.....	9
(Fig.5) Stickler syndrom.....	9
(Fig.6) Idiopathic GRB.....	18
(Fig.7) Idiopathic GRB.....	18
(Fig.8) Rolled posterior edge of GRB.....	20
(Fig.9) GRB with PVR formation.....	20
(Fig.10) Tolentino chart.....	22
(Fig.11) Pathogenesis of idiopathic GRB.....	25
(Fig.12) Dialysis of the vitreous base.....	28
(Fig.13) Retinal dialysis.....	28
(Fig.14) Pathogenesis of traumatic GRB.....	30
(Fig.15) Superior nasal traumatic GRB.....	30
(Fig.16) Inferior GRT posterior to lattice degeneration.....	32
(Fig.17) Giant tear of intensity treated area.....	32
(Fig.18) GRB with lens coloboma.....	34
(Fig.19) GRB after vitrectomy.....	34
(Fig.20) Iatrogenic GRB.....	36
(Fig.21) GRB secondary to IOL.....	36
(Fig.22) Anterior segment of patient with pseudophakic GRB.....	38

(Fig.23) Giant retinal tear.....	38
(Fig.24) Anterior flap of GRB.....	40
(Fig.25) Posterior flap of GRB.....	40
(Fig.26) Examination in a prone position.....	43
(Fig.27) Head exercises for a superior GRT.....	43
(Fig.28) Fluid-air exchange in the prone position.....	49
(Fig.29) Fluid-gas exchange in a lateral position.....	52
(Fig.30) Air-fluid exchange in the supine position.....	52
(Fig.31) Cannulated extrusion needle.....	54
(Fig.32) Silicon oil technique.....	54
(Fig.33) Retinal tack.....	59
(Fig.34) Introduction of PFCL.....	69
(Fig.35) Flattening of the detached retina with PFCL.....	69
(Fig.36) Completion of PFCL fill into the vitreous cavity.....	73
(Fig.37) Endophotocoagulation	73
(Fig.38) Laser indirect ophthalmoscopy	77
(Fig.39) Removal of the PFCL	77
(Fig.40) Anterior segment picture of patient with GRT	87
(Fig.41) GRT with choroidal detachment	87
(Fig.42) Postoperative Fundus picture of patient with GRT	95
(Fig.43) Perisilicon proliferation	95
(Fig.44) Paracentesis to drain aqueous and liquefied vitreous	102

LIST OF TABLES

	<i>Page</i>
Table (1) : Complications of silicon oil in PVR	94
Table (2) : Incidence of retinal breaks and retinal detachment in fellow eyes of nontraumatic giant breaks	98

LIST OF ABBREVIATIONS

BSS :	Balanced Salt Solution
C ₂ F ₆ :	Perfluoroethane gas
C ₃ F ₈ :	Perfluoropropane gas
d d :	Disc diameter
EDTA :	Ethylene diaminetetraacetic acid
GRBs :	Giant retinal breaks
GRTs :	Giant retinal tears
ILM :	Internal limiting membrane
IOP :	Intraocular pressure
MVR :	Microvitreous blade
OD :	Right eye
OS :	Left eye
PFCLs :	Perfluorocarbon Liquids
PVD :	Posterior vitreous detachment
PVR :	Proliferative vitreoretinopathy
RPE :	Retinal pigment epithelium
SF ₆ :	Sulfur Hexafluoride
