ACKNOWLEDGMENT

Thanks first and last to GOD as we owe him for his great care, support and guidance in every step in our life.

I would like to express my profound gratitude and cordial appreciation to my Prof. Dr. Abubakr Elseddik Moustafa, for his moral support, valuable supervision and for enabling me to fulfill this work. He is not only my Professor to whom I am very grateful, but he is also a human to whom I wish always the best of everything.

I wish also to thank Prof. Dr. Tarif Hamza Sallam, for his great help and supportive effort he did to produce this work. He had been very kind and generous to me.

Indeed, words do fail me when I come to express my sincere indebtedness to Dr. Abdelmonem Wahba, for his extraordinary honest effort and help. I wish to thank him for his valuable time and for his patience.

Special thanks are due to Dr. Hala Abd El Khalek, (a fellow of clinical pathology), for dedicating so much of her precious time and effort and for her kindness, and honest.

Finally, I would like to thank all persons who helped me in this work, the patients of our research and Dr. Ahmed Noub for his patience and magic touches in publishing this research.

*The candidate,
Ayman.*
