

Implications of Molecular
Biology
In
Anesthesiology

Essay

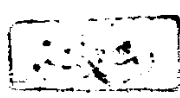

submitted for Partial Fulfillment of M. Sc. Degree in
Anesthesia

By

Hany Fawzi Wahib
M. B. B.ch , Ain Shams University

Prof. Dr. Mahmoud Mohamed Kamel
Professor of Anesthesia and Intensive care
Faculty of Medicine - Ain Shams University

Dr. Bassem Boulos Ghobriel
Lecturer in Anesthesia and Intensive care
Faculty of Medicine - Ain Shams University

Faculty of Medicine
Ain Shams University
1998

To My Family

Acknowledgment

First ; thanks are all to **God** for blessing me this work until it reached its end , as a little part of His generous help throughout my life .

I would like to express my sincere appreciation and deep gratitude to . **Professor Dr. Mahmoud Mohamed Kamel** , professor of Anesthesia and Intensive care ; Faculty of Medicine , Ain Shams University ; for his moral support , continuous encouragement . Really , it is a great honor to work under his guidance and supervision .

It gives me a great pleasure to express my deep gratitude to **Dr. Bassem Boulos Ghobriel** , lecturer in Anesthesia and Intensive care ; Faculty of Medicine , Ain Shams University , for his kind advice , valuable supervision and his great effort throughout this work .

Hany Fawzi Wahib

Contents

	page
Introduction	1
Chapter 1 : Basic Concepts	3
- Deoxyribonucleic acid (DNA)	3
- Ribonucleic acid (RNA)	15
- Gene Regulation	24
- Genetic Code	26
- Protein Synthesis	30
Chapter 2 : Molecular Biology	35
- Restriction Enzymes	35
- DNA sequencing	42
- Cloning	44
- Polymerase chain Reaction	51
- Southern and Northern Blotting	55
Chapter 3 : Gene Therapy	61
- Understanding the genetic defect	62
- Targeting cells	62
- Gene delivery vector	64
- Current status	71
Chapter 4 : Application of genetic techniques	75
- Malignant Hyperthermia	75
- Cystic fibrosis	93
- Cholinesterase enzyme abnormalities	101
- Sickle cell anemia	119
Summary	129
References	139
Arabic summary	148
