

Nutritional Status in Patients With Acute Stroke

Thesis

Submitted in Partial Fulfillment of

Master Degree in

Neuro-Psychiatry

Presented By:

Ahmed Mohamed El Sayed Mansour

Under Supervision of:

Prof. Dr. Mona Abd El Hamid Raafat

Professor of Neuro- Psychiatry

Faculty of Medicine - Ain Shams University

Dr. Taha Kamel Aloush

Assistant Professor of Neuro- Psychiatry

Faculty of Medicine - Ain Shams University

Dr. Mahmoud Hemeda El Rakawy

Lecturer of Neuro- Psychiatry

Faculty of Medicine - Ain Shams University

Faculty of Medicine
Ain Shams University

1998

Acknowledgement

Acknowledgement

It is not easy to acknowledge all who helped me, directly and indirectly, with continuous concern that helped me much during the preparation and the production of this work.

To my professor Dr. Mona Rafaat I owe a lot of things that can not be enumerated here. However, the inestimable lesson I learned was that the scientific responsibility is hand by hand with coherent thinking.

I am grateful to Dr. Taha Kamel Aloush his valuable remarks and suggestions helped me a lot in the final production of this work, in addition to his permissive and tolerant scientific attitude that encourages me much.

I have to express my appreciation to Dr. Mahmoud Hemeda for his continuous generous and sincere help and his meticulous revisions of the work.

Thanks to all personnel who helped me in this work, residents of neuro - psychiatry, Dr. Naglaa Arafaa in statistical analysis, Miss Manal Anwar in computer

typing and nursing family in stroke unit, Ain shams specialized hospital.

Last, and not the least, my acknowledgement is to my wife, father and brothers who shared me the difficult road. Their sustained feed back, by appreciation or criticism, was always offering support in my career and my life.

A. Mansour
