قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا
عَلَّمْتَنَا إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ

سَدَقَ اللَّهُ الْعَلِيمُ
البقرة - ٢٢

Acknowledgment

Thanks God who helped me to accomplish this work.

I wish to express my extreme indebtedness and gratitude to Prof. Dr. Ahmed Tawfik Souidan for his generous support and guidance, which was the primary motive for completing this task.

I am also deeply impressed and wish to express my heartfelt thanks to Dr. Hassan Zakaria Shaker for his invaluable advice, fruitful criticism and continuous help which without it, the completion of this work would have been an impossible job.

Thanks are also due to the Staff of Unit 6 of the Department of Surgery of El-Demerdash Hospital for sharing in completing this work.

Lastly but not the least, thanks to our patients, without them this work would have been of no value.

CONTENTS

Introduction and Aim of Work.....	1
Review of Literature.....	3
Surgical anatomy of the inguinal region.....	9
Pathology of inguinal herniation	35
Surgical treatment of adult primary inguinal hernia ..	43
Laparoscopic inguinal hernioplasty.....	73
Surgical treatment of recurrent inguinal hernia	95
Patients and methods	103
Results.....	117
Discussion.....	135
Summary and Conclusion	143
References.....	147

LIST OF TABLES

Table		Page
1.	Gilbert Classification for inguinal hernia	41
2.	Nyhus classification of groin hernia	41
3.	A classification of suture materials	48
4.	A classification of reinforcing materials	49
5.	Results of Bassini repair	54
6.	Results of Shouldice repair	56
7.	History of external mesh and hernia repair	59
8.	Indications and contraindications of Stoppa operation	66
9.	Complications of open hernia repair	71
10.	Results of comparative studies (open vs laparoscopic)	93
11.	The mean age	127
12.	Operative duration in minutes	128

List of Tables

Table		Page
13.	Recurrent hernias and operative duration	129
14.	Post operative requirement of analgesia	130
15.	Postoperative requirement of analgesia in recurrent hernia	131
16.	Duration of hospital stay	132
17.	Timing of patient ambulation (hours)	133
18.	Return to work (weeks)	134

LIST OF FIGURES

Figure		Page
1.	Anterior abdominal wall muscles	10
2.	Groin Hernias	11
3.	Layers of anterior abdominal wall in the inguinal area.	13
4.	Tension lines of the skin, front and back.	14
5.	Left superficial inguinal ring.	16
6.	Left transversus abdominis, showing the conjoint tendon.	17
7.	The relations of the spermatic cord at the deep inguinal ring.	19
8.	The posterior inguinal wall.	20
9.	Right inguinal canal.	24
10.	Left testis and coverings of the spermatic cord.	25
11.	The neuroanatomy of the inguinal region.	26
12.	Fossae of the anterior abdominal wall.	28

List of Figures

Figure		Page
13.	The triangle of Doom.	31
14.	Direct and indirect hernias in relation to groin anatomy.	33
15.	Components of the surgical ellipse.	47
16.	Herniotomy.	51
17.	Management of direct sac	51
18.	The three layers of Bassini	53
19.	The repair made by interrupted stitches	53
20.	Shouldice Repair.	55
21.	Lichtenstein open tension free repair.	61
22.	Gilbert suturless repair.	63
23.	Rives abdominal approach.	64
24.	Stoppa prosthesis .	65
25.	O.R. setup in laparoscopic hernioplasty.	79
26.	Triangulation of the working ports.	80

Figure		Page
27.	Laparoscopic hernia stapler.	81
28.	Phillips technique.	89
29.	Access to the preperitoneal space by means of blunt dissection.	90
30.	TEP-Technique-Retraction of hernial sac.	90
31.	Preparation of mesh (left inguinal hernia).	90
32.	The dissecting balloon.	91
33.	Lichtenstein technique. Fixation of mesh to pubic tubercle	112
34.	Fixing the mesh to Poupart's ligament	112
35.	Suturing the upper leaf to the internal oblique	113
36.	The new internal ring made of mesh	113
37.	Laparoscopic TAPP technique, position of ports	114
38.	Endoscopic hernia exposure	114
39.	Peritoneum incised	115
40.	Stapled mesh in situ	115

List of Figures

Figure		Page
41. A	Types of hernia in Lichtenstein group	118
41. B	Types of hernia in laparoscopic group	119
42.	The cost of hernia repair	126
43.	The mean age	127
44.	Operative duration	128
45.	Recurrent hernias and operative duration	129
46.	Postoperative requirement of analgesia	130
47.	Postoperative requirement of analgesia in recurrent cases	131
48.	Duration of hospital stay	132
49.	Timing of patient ambulation	133
50.	Return to work	134
