

**CURRENT CERVICAL CHLAMYDIAL
INFECTION IN PATIENTS WITH
RECURRENT SPONTANEOUS ABORTION**

**THESIS
SUBMITTED FOR PARTIAL FULFILLMENT OF THE
MASTER DEGREE
IN
OBSTETRICS & GYNAECOLOGY**

**BY
EMTITHAL MOHAMED HASSAN**

MB .,B . CH

SUPERVISED BY

**Prof . Dr Mahmoud Ali Ahmed EL-shourbagy
Professor of Obst . and Gynaecology
Ain Shams University**

**Dr . Bahaa A.K. Fateen
Assistant Professor of Obstetrics and Gynaecology
Ain Shams University**

**Dr . Zeinab A.K. Shehab .EL Din
Assistant Professor of Pathology
Ain Shams University**

**FACULTY OF MEDICINE
AIN SHAMS UNIVERSITY
1997**

ACKNOWLEDGMENTS

Thanks and gratefulness will not be enough to express my great indebtedness to **professor Dr. Mahmoud El-shourbagy** professor of Obstetrics and Gynecology , Faculty of Medicine , Ain Shams University , for his valuable guidance , instructive supervision , sincere suggestions , and unlimited effort and time he freely gave to me during the course of this study .

I am deeply grateful to **Dr Bahaa A . K Fateen** Assistant professor of Obstetrics and Gynecology, Faculty of Medicine, Ain Shams University, for his generous help , precious advices and encouragement

I wish also to convey my deep appreciation to **Dr .Zeinab A. K .Shehab EL Din .Assistant** professor of Pathology Faculty of Medicine, Ain Shams University for her great patience ,fruitful aids , valubale guidance and technical advices which help me to complete this thesis

contents

Introduction	1
Aim of the Study.....	3
Review of Literature	4
Microbiology	4
Incidence of Genital Chlamydia Trachomatis Infection in Egyptian Women.....	14
Clinical manifestations of C. trachomatis infection in Women	15
Chlamydia trachomatis infection during pregnancy.....	22
Laboratory diagnosis of chlamydia trachomatis.....	27
Treatment of C. trachomatis.....	32
Recurrent abortion.....	35
Definitions and incidence	35
Aetiology.....	36
The relationship between Chlamydia trachomatis infection and recurrent spontaneous abortion	51
Subjects and Methods.....	58
Results.....	68
Discussion	80
Summary and Conclusion.....	83
References	86
Appendix	
Arabic Summary	

List of Tables

Tab.No	Title	
1	Chlamydiae and human diseases.....	16
2	Published treatment trials of Chlamydial Cervicitis in Non pregnant and Pregnant Women.....	33
3	Clinical data of 40 patients with previous history of recurrent abortion included in the study for detection of cervical Chlamydial infection.....	60
4	The Incidence of Chlamydia trachomatis infection of the cervix in 40 patients with idiopathic recurrent spontaneous abortion with 40 controls.....	70
5	Comparison between the incidence of Chlamydia Trachomatis infection and ages of the patients in the study group (Recurrent abortion)	72
6	The incidence of Chlamydia trachomatis infection in patients with idiopathic recurrent spontaneous abortion in relation to the number of abortions.....	74
7	The incidence of Chlamydia trachomatis infection in patients with idiopathic recurrent spontaneous abortion in relation to parity.....	76
8	The incidence of Chlamydia trachomatis infection in patients with idiopathic recurrent spontaneous abortion in relation to history of contraceptive use	78

List of Figures

Fig. No	Title	
1	Chlamydial growth cycle	8
2	Etiology of early pregnancy losse.....	37
3.a	Method of taking the endocervical specimen.....	61
3.b	The cytobrush and the slide.....	62
4	A positive direct specimen slide for Chlamydia trachomatis.....	65
5	A negative direct specimen slide for Chlamydia Trachomatis.....	66
6	The incidence of Chlamydia Trachamotis infe- ction of the cervix in 40 patients with idiopa- thic recurrent spontaneous abortion with 40 controls.....	71
7	Comparison between the incidence of Chlamydia Trachomatis infection and ages of the patients in the study group (Recurrent abortion)	73
8	The incidence of Chlamydia trachomatis infe- ction in patients with idiopathic recurrent spontaneous abortion in relation to the number of abortions.....	75

List of Figures

Fig. No	Title
9	The incidence of Chlamydia trachomatis infection in patients with idiopathic recurrent spontaneous abortion in relation to parity.....77
10	The incidence of Chlamydia trachomatis infection in patients with idiopathic recurrent spontaneous abortion in relation to history of contraceptive use79
