Title of Thesis

The Usage of Some Available Minerals in the Egyptian Rocks as Semi-Conductors and the Study of their Electrical and Optical Properties

Degree of Master in Science
(Physics)

Supervising Committe

44459

Prof. Dr. Aida El Beily
Head of Physics Department
Faculty of Girls
for Art, Science & Education
Ain Shams University

Prof. Dr. Laila Attia Guirgis
Nuclear Materials Corporation
Cairo, Egypt

Prof. Dr. Mohamed Hussein El Fouly
Radiation Technology Center

Date of Research: 8/2/1986

Approval Stamp:

Date of Approval: / / 19

Approval of Faculty Council

Approval of University Council

Name of Student: Samar Adel Mohamed Abdel Ghafar.

Scientific Degree: Bachelor of Science.

Department: Physics.

Name of Faculty: Faculty of Girls.

University: Ain Shams.

Graduation Date: May 1983.

Academic Scholarship:

Central Library - Ain Shams University

ACKNOWLEDGEMENT

I would like to express my gratitude to those who supervised my work.

1. ***Prof. Aida El Bially*** *- Head of Physics Department Women's College for Art, Science & Education, Ain Shams University.*
2. ***Prof. Dr. Laila Attia Guirgis*** *- Nuclear Materials Corporation, Cairo, Egypt.*
3. ***Prof. Dr. Mohamed Hussein El Fouly*** *- Prof. of Physics - Radiation Technology Center.*

I am also grateful to those who supported me in this research; ***Dr. Hamdia Abdel Hamid Zayed,*** *Assistant Professor of Physics Department, Women's College for Art, Science & Education, Ein Shams University.*

I would like to extend my gratitude to the following authorities:

1. *Physics Department - Women's College for Art, Science & Education Ain Shams University.*
2. *Nuclear Materials Corporation.*
3. *Radiation Technology Center.*
4. *National Research Center.*

ABSTRACT -- 1

SUMMARY -- 2

INTRODUCTION -- 6

CHAPTER I:

LITERATURE REVIEW. ---------------------------- 8

CHAPTER II:

THEORITICAL BACKGROUND ---------------------- 28

II.1 Electrical Properties of Semiconductors. ---------- 28

II.1.1. The Conductivity And The Resistivity of the Semiconductors. 28

II.1.2. Electron Distribution in Semiconductors ---- 30

II.1.3. Calculation of Conductivity of Semi Conductors by Applying Fermi Statiatics. 35

II.1.4. Mobility. ---------------------------- 40

II.2. Optical Properties of Semiconductors. ---------- 42

II.2.1. Absorption Spectra-------------------- 42

II.2.2. Fundamental Absorption--------------- 45

II.2.3. Calculation of Absorption Coefficient and Optical Constants. 48

Central Library - Ain Shams University

CHAPTER III:

EXPERIMENTAL TECHNIQUE AND APPARATUS 51

III.1. Material Preparation------------------------- 51

III.2. Structural Identification---------------------- 54

III.2.1. Electron Microscope Study of the Prepared Samples. 54

III.2.2. X-ray Diffraction Examination----------- 55

III.3. Electrical Conductivity Measurements---------- 56

III.4. Optical Measurements---------------------- 60

III.4.1. Transmission and Reflection Measurements. 61

CHAPTER IV:

EXPERIMENTAL RESULTS AND DISCUSSION ----------- 64

IV.1. Separation of Galena (pbS) -------------------- 65

IV.2. Structural Properties of Lead Sulphide Samples--- 73

IV.2.1. Scanning Electron Microscope----------- 74

IV.2.2. X-ray Diffraction Analysis of PbS in Powder and Thin Films Forms. 79

IV.3. Electrical Properties of Pbs Thin Films---------- 84

IV.3.1. The Temperature Dependence of Electrical Conductivity for PbS thin films. 85

IV.3.2. The Effect of Film Thickness on the Energy 89

Central Library - Ain Shams University

Page

Gap and Conduction Activation Energy of Pbs Thin Films.

IV.3.3. The Effect of Annealing Temperature on the Energy Gap and Conduction Activation Energy of Pbs thin Films. 90

IV.3.4. The Energy Gap and Activation Energy for Pbs Thin Films with added Sulphur. 90

IV.3.5. Temperature Coefficient of Resistance (TCR) for Pbs and Pbs thin Films. 91

IV.4. Optical Properties of Pbs Thin Films------------ 93

IV.4.1. Optical Energy Gap of Pbs thin Films------- 94

IV.4.2. The Effect of Thickness on the Energy Gap of Pbs thin Films. 98

IV.4.3. Effect of Annealing Temperature on the Energy Gap of Pbs Thin Films. 102

IV.4.4. Effect of Excess Sulphur on the Energy Gap of Pbs Thin Films. 106
