

# IDENTIFICATION OF RISK FACTORS OF DEVELOPMENTAL DELAY IN INFANTS

Thesis

Submitted for Fulfillment of the Requirements for the  
Degree of Ph.D. in  
Medical Childhood Studies

By:

**Dr. Nahla Ibrahim El - Hadidy**

M.Sc. Pediatrics

Cairo University

*Supervisors*

**Pro. Dr./ M. Salah El-Din Mostafa**

Professor of Preventive Medicine and Epidemiology

Chairman of Medical Studies Department

In Institutes of Postgraduate Childhood Studies,

Ain Shams University

**Dr./Magdi Karam El din Ali**

Assistant Professor In Institute of  
Postgraduate Childhood Studies

Ain Shams University

**Dr./Maisa Nasr Farid**

Lecturer in Institute of Postgraduate  
Childhood Studies

Ain Shams University

**Institute of Postgraduate Childhood Studies**

## Acknowledgement

Words can not express my deepest thanks and gratitude to Professor *Dr. Salah Mostafa* Professor of Preventive Medicine, the Chairman of Medical Studies Department in Institute of Postgraduate Childhood Studies, Ain Shams University, who saved neither effort nor patience in guiding me throughout this work. I am so grateful for his valuable generous support, encouragement and assistance during all steps of this work

I would like to express my deep appreciation to *Dr. Magdy Karam El-Din*, Assistant Professor in Institute of Postgraduate Childhood Studies, Ain Shams University for his valuable share in supervision and beneficial advises helped me in achieving this work.

My deepest thanks and gratitude to *Dr. Maisa Nasr Farid*, Lecturer in Institute of Postgraduate Childhood Studies Ain Shams University, for her great effort and assistance during all steps of this work.

I am sincerely grateful for her guidance and valuable instructions, which enabled me to accomplish this study.

# List of Contents

	Page
Acknowledgment -----	2
List of contents -----	3
List of Figures -----	6
List of Tables -----	7
List of Appendices-----	10
List of Abbreviations -----	11
A- Introduction and Aim of Work --	14
B - Review of Literature	16
1. Growth and Development -----	17
1.1. Growth and Development in First Year -----	18
1.1.1. Physical development -----	18
1.1.2. Gross motor development -----	20
1.1.3. Fine motor development -----	22
1.1.4. Language development -----	23
1.1.5. Cognitive development -----	26
1.1.6. Emotional development -----	28
1.2. Growth and Development in Second Year	31
1.2.1. Physical development -----	31
1.2.2. Neurodevelopment -----	31
1.2.3. Language development -----	32

1.2.4. Psychosocial development -----	33
1.3. Developmental Assessment -----	34
1.3.1. Screening tests -----	34
1.3.2. Diagnostic assessment -----	35
1.4. Theories of Child Development -----	37
2. High Risk Infant	
2.1. Premature and Low Birth Weight -----	41
2.2. Intrauterine Growth Retardation -----	48
2.3. Nutrition -----	52
2.3.1. Failure to thrive -----	52
2.3.2. Malnutrition -----	55
2.3.3 Breast Feeding -----	58
2.3.4. Nutritional rickets -----	64
2.3.5. Iron deficiency anemia -----	70
2.4. Maternal Smoking -----	74
2.5. Environmental Factors -----	77
2.5.1. Nutrition and development -----	77
2.5.2. Family size -----	77
2.5.3. Emotional deprivation -----	78
2.5.4. Effect of training on brain morphology -----	78
2.5.5. Effect of postnatal depression on infant -----	
----- developmen -----	80

	2.5.6 Poverty -----	82
٤٤ -----	2.6.Mental Retardation -----	86
٤٤ -----	2.7. Cerebral Palsy -----	91
٤٤ -----	C. Subject and Method -----	96
٤٤ -----	D. Results	
٤٤ -----	1.Descriptive Results -----	111
	2.Analytic Results	
٤٤ -----	2.1. Group 1 -----	128
٤٤ -----	2.2. Group 2 -----	150
٤٤ -----	E. Discussion --	166
٤٤ -----	F. Summery - Conclusion - Recommendation	177
٤٤ -----	G. References ---	182
٤٤ -----	H. Appendices	218
٤٤ -----	Appendix 1	219
٤٤ -----	Appendix 2	234
٤٤ -----	Appendix 3	238
٤٤ -----	Append ix 4	244
٤٤ -----	I. Abstracts	316
٤٤ -----	J. Arabic Summery	319

## List of Figures

	Page
1- Bar representing test item -----	104
2- Represent footnote number -----	105
3- Showing sex distribution -----	112
4- Showing percentage of delayed infants -----	113
5- Showing percentage of delay among sex -----	114
6- Showing risk of consanguinity -----	129
7- Showing risk of parity -----	132
8- Showing risk of type of delivery -----	134
9- Showing risk of neonatal and infancy problems -----	138
10- Showing risk of difficulty during feeding -----	141
11- Showing risk of father occupation -----	145
12- Showing risk of absent parental bonding -----	147
13 - Showing risk of some social - environmental factors--	148
14- Shows risk of neonatal and infancy problems (after exclusion of rachitic infants) -----	155
15- Shows risk of artificial feeding (after exclusion of rachitic infants) -----	157
16 - Shows risk of feeding difficulty (after exclusion of rachitic infants) -----	158
17- Showing risk of family problems (after exclusion of rachitic infants) -----	163

## List of Tables

	Page
1- Infant in the high risk category-----	42
2- Identifiable causes of preterm birth-----	44
3- Factors associated with intrauterine -----	49
<b>Growth retardation</b>	
4- Problems of intrauterine growth retardation-----	51
5- Major organic causes of failure to thrive -----	54
6- Contributing factors in pathogenesis of mental retardation - -----	88
7- Physical features that may be associated with increased risk of mental retardation -----	89
<b>Tables of descriptive results</b>	
8- Relation of infant developmental delay among some hereditary risk factors -----	111
9- Percentage of infant developmental delay in relation to family history of chronic illnesses -----	115
10- Infant developmental delay among some obstetric risk factors-----	116
11- Infant developmental delay in relation to prenatal problems -----	117
12- Infant developmental delay among those exposed to problems during delivery -----	118

13- Infant developmental delay among those exposed to neonatal problems -----	119
14- Infant developmental delay among those exposed to infancy problems -----	120
15- Infant developmental delay among those exposed to feeding problems -----	121
16- Infant developmental delay among those having abnormality during examination -----	122
17- Infant developmental delay among different age groups of the mother -----	124
18- Infant developmental delay in relation to mother and father occupation -----	125
19- Infant developmental delay in relation to family size, crowding index and family problems -----	126
20- Infant developmental delay in relation to electric sets --- owned by the family -----	127

**Tables of analytic results:**

**Analytic study I**

21- Risk of some hereditary factors -----	128
22- Risk of positive family history of chronic illnesses---	130
23- The risk of parity -----	131
24- Showing risk of some obstetric problems -----	133
25- Showing risk of antenatal problems -----	135

26-	Risk of perinatal problems -----	136
27-	Showing risk of neonatal problems -----	137
28-	Showing risk of problems during infancy -----	139
29-	Showing risk of feeding problems -----	140
30-	Risk of breast feeding duration -----	142
31-	Showing risk of mother age -----	143
32-	Showing risk of parental education -----	
	and occupation-----	144
33-	Showing some social-environmental risk factors ----	146
34-	Risk of socioeconomic status -----	149
<b>Analytic study 11</b>		
35-	Showing some hereditary risk factors -----	150
36-	Risk of positive family history of chronic illnesses -	151
37-	Showing some obstetric risk factors -----	152
38-	Risk of antenatal problems -----	153
39-	Showing risk of neonatal problems -----	154
40-	Risk of problems during infancy -----	154
41-	Showing risk of feeding problems -----	156
42-	Risk of maternal age -----	159
43-	Risk of parental education and occupation -----	160
44-	Risk of absent parental bonding -----	161
45-	Risk of some social factors -----	162
46-	Risk of socioeconomic status -----	164

## List of Appendices

	Page
<b>Appendix 1</b>	
Fig (1) Milestones in infant locomotor development-----	220
Fig (2) Milestones in fine motor development-----	222
Tab (1) Summary of growth and development during the first year -----	223
Tab (2) developmental milestones in language acquisition in first tow years-----	226
Tab (3) Social and emotional development in infancy -----	229
Tab (4) Emerging patterns of behavior from 1-2 years of age -----	233
<b>Appendix 2</b>	
Fig (3) Denver Developmental Screening Test-----	235
Fig (4) The Abbreviated and Revised Denver Developmental Screening Test -----	237
<b>Appendix 3</b>	
Questionnaire -----	239
<b>Appendix 4</b>	
List of abbreviatin of -----	245
Individual data of studied subjects -----	246

## **List of Abbreviations**

**AF:** Artificial feeding

**Ap:** Appendix

**ATNR:** Asymmetrical tonic neck reflex

**BF:** Breast-feeding

**CI:** Confidence interval

**CNS:** Central nervous system

**CP:** Cerebral palsy

**C/S:** Cesarean section

**CV:** Cardiovascular

**D:** Delay

**DDST:** Denver Developmental Screening Test

**DDST-R:** Denver Developmental Screening Test - Revised

**DM:** Diabetes Mellitus

**Fig:** Figure

**FTT:** Failure to thrive

**G/day:** Gram per day

**H:** Heater

**IQ:** Intelligent Quotient

**Irrad. :** Irradiation

**IUGR:** Intrauterine growth retardation

**LBW:** Low birth weight  
**LLL:** Lower limbs  
**MR:** Mental retardation  
**OR:** Odd's ratio  
**P:** Probability  
**Q:** Questionable  
**Ref:** Refrigerator  
**Resp:** Respiratory  
**Resuscit. :** Resuscitation  
**SD:** Standard deviation  
**SGA:** Small for gestational age  
**Suppl. F:** Supplementary feeding  
**Tab:** Table  
**ULL:** Upper limbs  
**V.C.:** Vacuum cleaner  
**VLBW:** Very low birth weight  
**WM:** Washing machine  
**+Ve:** Positive **-Ve:** negative  
**X<sup>2</sup>:** Chi square
