## *Acknowledgement*

*I am deeply thankful to ALLAH by the grace of whom this work was achieved.*

*I wish to express my deep gratitude to Prof. Dr. Mahmoud M. Ghorab, Professor of Pharmaceutics, Faculty of Pharmacy, Cairo University for sponsoring and supervising the work and for his assistance and encouragement throughout the course of the presented study and preparation of the thesis.*

*I am deeply endowed with feeling of duty and obligation towards Prof. Dr. Hussein O. Ammar Professor of Pharmaceutical Technology, National Research Center for suggesting the subject, for his helpful guidance, continuous encouragement during the development of the work and fruitful supervision and continuous support throughout this work.*

*I am profoundly grateful to Dr. Azza A. Mahmoud, lecturer of Pharmaceutics, National Research Center, without her indispensable advice and useful effort this work could not be achieved.*

*I would like to thank Dr. Tarek S. Makram, lecturer of Pharmaceutics, 6<sup>th</sup> October University, for his useful advices during the whole work of this thesis.*

*I would like to thank Prof. Dr. Nawal EL-Degwy, Head of MSA University and Prof. Dr. Sherif EL-Degwy, Vice President, MSA University, for their helpful support.*

*I gratefully appreciate Mr. Rafik Nessim, General manager, Chemipharm pharmaceutical industries for the generous supply of lornoxicam.*

*A special debt of gratitude is gladly acknowledged to my husband, for his encouragement, continuous support and most of all his patience for which I am truly grateful.*

*Finally, words could never express my deep feelings towards my parents and all my family, without their support it would have been hard to come this far.*

*I would like to extend my deep thanks to all my colleagues of the Pharmaceutical Technology Department, National Research Center for their help.*
