

# ESTIMATION OF PLASMA FIBRONECTIN IN COMPLICATED PRETERMS

THESIS  
Submitted for Fulfillment of Ph.D.  
of Childhood Studies  
(Medical Department)

By  
**JEHAN IBRAHIM SAFAR**  
M. B. B. Ch., M. Sc. Pediatrics

## ACKNOWLEDGEMENT

**First and foremost, thanks to God**

*I wish to express my deep thanks and gratitude to Prof. Dr. Mohamed Fouad El-Badrawy Prof. Of pediatrics, faculty of Medicine, Ain Shams University for giving me the honor of working under his supervision, and kind guidance and support.*

*My deepest appreciation to Prof. Dr. Heba Alla Sedky, Prof. Of clinical pathology, faculty of Medicine, Ain Shams University for her valuable help in the practical part and constructive guidance.*

*My deep thanks to Dr. Sanaa Abd El-Rahman, Assis. Prof. Of pediatrics, faculty of Medicine, Ain Shams University for her great help, valuable advice and cooperation in this work.*

## **LIST OF ABBREVIATIONS**

<b>CLSE</b>	<b>Calf Lung Surfactant Extract.</b>
<b>CPAP</b>	<b>Continuous Positive Air Pressure.</b>
<b>CRP</b>	<b>C-reactive Protein.</b>
<b>DPPC</b>	<b>Dipalmitoyl Phosphatidyl Choline.</b>
<b>G/A</b>	<b>Gestational Age.</b>
<b>HMD</b>	<b>Hyaline Membrane Disease.</b>
<b>L/S</b>	<b>Lethicin Sphingomyelin Ratio.</b>
<b>NEC</b>	<b>Necrotizing Enterocolitis.</b>
<b>NICU</b>	<b>Neonatal Intensive Care Unit.</b>
<b>PAF</b>	<b>Platelet Activating Factor.</b>
<b>PC</b>	<b>Phosphatidyl Choline.</b>
<b>PDA</b>	<b>Patent Ductus Arteriosus.</b>
<b>PG</b>	<b>Phosphatidyl Glycerol.</b>
<b>RDS</b>	<b>Respiratory Distress Syndrome.</b>
<b>TNF</b>	<b>Tumor Necrosis Factor.</b>
<b>WBCs</b>	<b>White Blood Cells.</b>

<b>-Arabic Summary</b>	

<b>Table (7):</b> .....	<b>71</b>
Modified Bell staging criteria for necrotizing enterocolitis.	
<b>Table (8):</b> .....	<b>76</b>
Characteristics of early onset and late onset neonatal sepsis.	
<b>Table (9):</b> .....	<b>86</b>
Differential diagnosis of clinical signs associated with neonatal sepsis and some non infectious conditions.	
<b>Table (10):</b> .....	<b>90</b>
Dosage recommended for antibiotics commonly used in newborn infants.	
<b>Table (11):</b> .....	<b>98</b>
Mean plasma fibronectin levels in neonatal sepsis Vs control group.	
<b>Table(12):</b> .....	<b>100</b>
Mean plasma fibronectin levels in RDS Vs control group.	

<b>LIST OF TABLES</b>	<b>Page</b>
<b>Table (1) :.....</b>	<b>16</b>
Biological activities of the fibronectin.	
<b>Table (2) :.....</b>	<b>26</b>
Enhancement of phagocytic functions by fibronectin.	
<b>Table (3) :.....</b>	<b>47</b>
Dowens or RDS score.	
<b>Table (4) :.....</b>	<b>48</b>
HMD severity scoring system on radio graphs.	
<b>Table (5) :.....</b>	<b>58</b>
Randomized controlled trials of prophylactic administration of natural surfactant extract.	
<b>Table (6) :.....</b>	<b>59</b>
Randomized controlled trials of prophylactic administration of synthetic surfactant extract.	

## **LIST OF FIGUERS**

**Page**

<b>Fig.(1):</b> .....	<b>6</b>
Structure of fibronectin	
<b>Fig.(2):</b> .....	<b>20</b>
Role of fibronectin in the response of phagocytes to bacterial invasion.	
<b>Fig.(3):</b> .....	<b>68</b>
The causes of necrotizing enterocolitis .	
<b>Fig.(4):</b> .....	<b>99</b>
Comparison of mean plasma fibronectin in neonatal sepsis Vs controls	
<b>Fig.(5):</b> .....	<b>101</b>
Comparison of mean plasma fibronectin in respiratory distress syndrome Vs controls.	
<b>Fig.(6):</b> .....	<b>103</b>
Comparison of mean plasma fibronectin in necrotizing enterocolitis Vs controls.	

<b>Table(13):.....</b>	<b>102</b>
Mean plasma fibronectin levels in NEC Vs control group.	
<b>Table(14):.....</b>	<b>104</b>
Correlation between plasma fibronectin in neonatal sepsis to WBCs and CRP.	
<b>Table(15):.....</b>	<b>107</b>
Correlation between plasma fibronectin in neonatal sepsis to gestational age	
<b>Table(16):.....</b>	<b>108</b>
Correlation between plasma fibronectin in NEC to WBCs and CRP.
