## **ACKNOWLEDGMENT**

I must state here the debt I owe to *Dr. Farida Ahmed Farid*, Professor of Pediatrics, Ain Shams University, for her constructive remarks and valuable advice. Working under her supervision is all at once both pleasurable and educational. Her motherly attitude towards her patients and her team is unique and memorable

To *Dr. Mohamed S. El-Din Faheem*, Assistant professor of Pediatrics, Ain Shams University I would like to express my cordial thanks and sincere gratitude; he gave me an excellent example of how a true scientist should guide and supervise his student's work, for his endless encouragement and constructive criticism with the spirit and capacity of true scholar.

This work would have never been completed without the great help, close supervision and meticulous lab work offered by *Dr. Hanaa Mohamed Afifi* Lecturer of clinical pathology, Ain Shams University.

I would like to extend my deep appreciation to *Dr. Sameh Abdl-Hai*, Assistant Professor of pediatric surgery, Ain Shams University, for his great help regarding endoscopic examination of our patients.

Any expression of thanks would fail to give the team of the Pediatric Dialysis Unit, Ain Shams University, its worth of gratitude for its practical and moral support through this work. I acknowledge my courageous patients and their brave parents for thier cooperation and their sincere feelings. I also acknowledge all my colleagues who helped me in one way or another in achieving this work.
